BLUELINX
DELIVERING WHAT MATTERS™

Delivering The Building Blocks to Better Lives.

BlueLinx is a building products distributor for residential and commercial construction.

CALL TODAY!
1-888-502-2583

- Unparalleled Customer Service
- Extensive Selection of Products
- Coast-to-Coast Distribution

BlueLinx is the leading wholesale building products distributor for the top brands and customers in North America for homes and commercial construction. With warehouses across the country and a strong logistics network, we pick, pack, and ship the most sought-after materials to retailers and builders across America – completely, accurately, and on time. Since 1954, BlueLinx has been a proud blue-collar company of dedicated people who use their hands and skills to help transform building products into strong, secure businesses, houses, and homes. We emerged out of the plywood distribution division of Georgia-Pacific Corporation and have grown to become a preeminent partner for specialty materials suppliers, retailers, and professionals in the construction industry. BlueLinx is headquartered in Atlanta, Georgia.

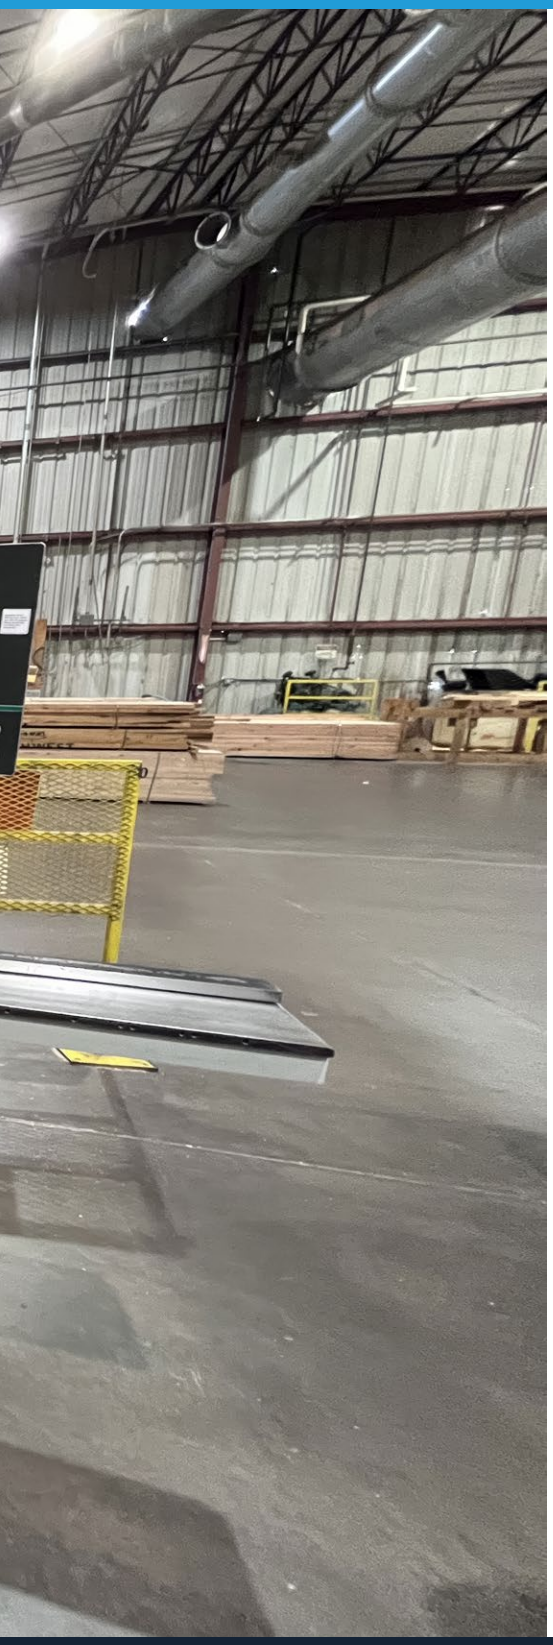
Value-Added Services

Remanufacturing & Warehouse Solutions



With comprehensive in-house value-adding capabilities, we deliver both softwood and hardwood remanufacturing solutions designed to support a wide range of customer needs. Our operation is equipped with advanced moulders, gang-rip and straight-line rip saws, resaws, a high-speed planer, and integrated packaging equipment—allowing us to provide efficient, high-quality, value-added services for virtually any job. Beyond remanufacturing, our warehousing capabilities enable us to develop customized, just-in-time inventory programs tailored to specialty businesses, helping streamline supply chains, improve product availability, and increase inventory turns.

SOFTWOODS

- Gang-Ripping
- Resaw
- Precision End Trim (P.E.T.)
- Sorting
- Packaging / Sub-Packing
- S4S

HARDWOODS

- 2 Weinig Moulders that can produce custom hardwood and softwood moulding profiles up to 9” wide
- Custom Profile Grinding
- Surfacing (S2S)
- Straight Line Ripping (SLR1E)
- Gang-Ripping
- S4S Surfacing

CEDAR / DOUG FIR

- Custom Cut Corbels
- Custom Cut Rafter Tails
- Custom Cut Brackets & Knee Braces
- Surfacing – S4S of Dimensionals & Timbers

GET THE MOST OUT OF YOUR FLOORS AND **EVERYTHING YOU BUILD ON TOP OF THEM**

Engineered with strength, moisture resistance and fastener-holding power, AdvanTech® subflooring is the brand builders trust for quality subfloors. Combined with the polyurethane bond of AdvanTech™ subfloor adhesive, the AdvanTech™ Subfloor Assembly offers a panel-to-joist connection so powerful you won't hear a squeak, guaranteed[1]. Build with award-winning AdvanTech subflooring and rest assured you'll get the FLAT OUT BEST™.

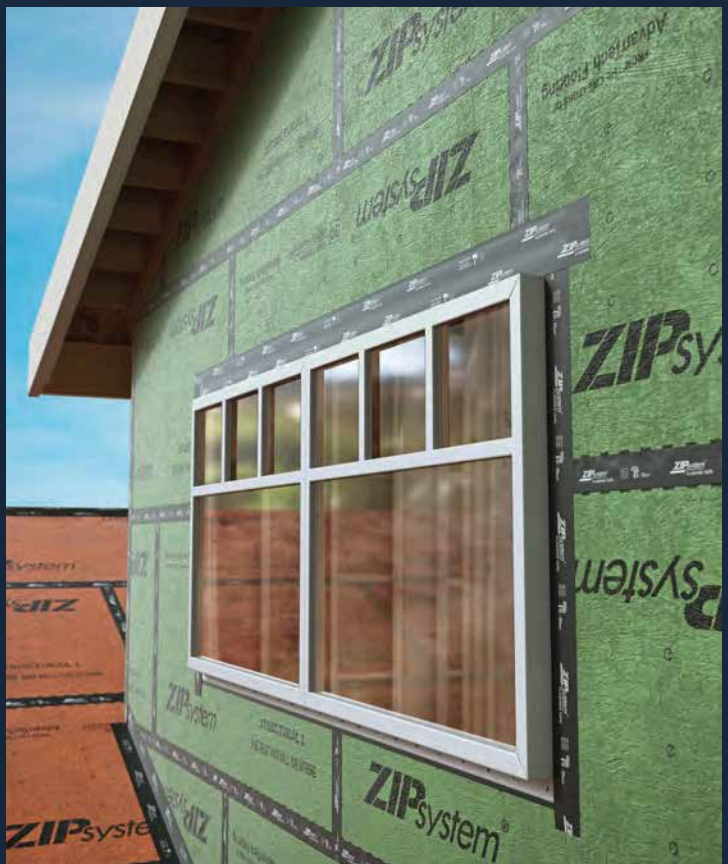
ZIPsystem™

TRANSFORM
THE WAY YOU BUILD

Revolutionized Tight, Dry Building Enclosures

Thanks to our relentless passion for creating better building solutions, ZIP System™ building enclosures provide built-in water, air and thermal control along with streamlined installation. As a result, our family of structural and sealing products makes it easy to meet your highest standards, satisfy new energy codes and just plain build better homes.

ZIPSystem.com



Huber

ZIP System® OSB, Sub-Floor & Accessories

Huber Products are Engineered to Enhance the Performance of a Building.

Award-winning, high performance products for roof, wall and flooring applications.

Huber products are engineered to enhance performance. Draft free homes and squeak-free subfloor assemblies are why building professionals rely on Huber products from their first job to their last.

onCENTER® LVL

onCENTER® LVL is available in a broad range of sizes to meet the varying demands of today's designers, builders, and homeowners. It's the natural choice when you need stable dimensions, consistent performance, and superior strength. With design properties far surpassing those of ordinary dimension lumber, shallower depths, longer clear spans, and fewer intermediate supports are all feasible. Typical applications include door and window headers, floor beams, ridge beams, and hip and valley beams. Quality is monitored by the third-party inspection services of APA-EWS® and backed by a lifetime limited warranty.

- 2.1E grade
- 1¾" width
- Various depths from 7¼" to 24"
- Straighter wood that resists warping and shrinking
- Greater design flexibility than ordinary lumber
- Factory-sealed coating to protect against the elements during construction
- Lifetime limited warranty*

onCENTER® BLI Joists

- Lightweight and easy to handle, the I-shaped configuration allows for longer spans and more load-carrying capacity than dimension lumber
- Manufactured with Machine Stress Rated (MSR) or laminated veneer lumber (LVL) flanges and an enhanced OSB web
- Low moisture content means greater dimensional stability resulting in quieter floors and fewer costly callbacks
- Wide flanges provide more support for floor sheathing and more surface area for nailing, saving time and money
- Available in value lengths up to 48' (up to 60' by special order)
- Lifetime limited warranty*

Not all joist series and depths may be available in all locations. Contact BlueLinx for local availability.

Rim Board

Rim board is an essential component of modern construction, serving as a foundational element that completes the framing of a building's floor system. Positioned along the perimeter of the floor, rim boards provide crucial support by connecting floor joists and helping distribute the load evenly to the building's foundation or walls. Engineered for strength and stability, rim boards play a pivotal role in creating a structurally sound and well-balanced foundation for both residential and commercial structures, ensuring the integrity of the entire framework.

1 1/2" X 16"	onCENTER RIMBOARD SE	36

Glulams

In addition to the onCENTER® family of products, BlueLinx also stocks glued-laminated beams and columns in many of our warehouse locations. Often used as a one piece alternative to multiple plies of LVL, glulams are available in a wide range of grades, widths, and depths to fit just about any engineered lumber need.

- **Industrial Appearance** - Economical choice for typical structural needs
- **Architectural Appearance** - Special order glulams when exposed beams are desired
- **Pressure Treated** - For wet applications like exposed decks and porches
- **I-Joist Compatible Depths** - Maintain flush applications with a BLI joist floor system
- **Multiple Grades** - 1.6E to 2.1E, balanced / unbalanced, cambered / uncambered
- **Columns** - When design loads require an engineered product

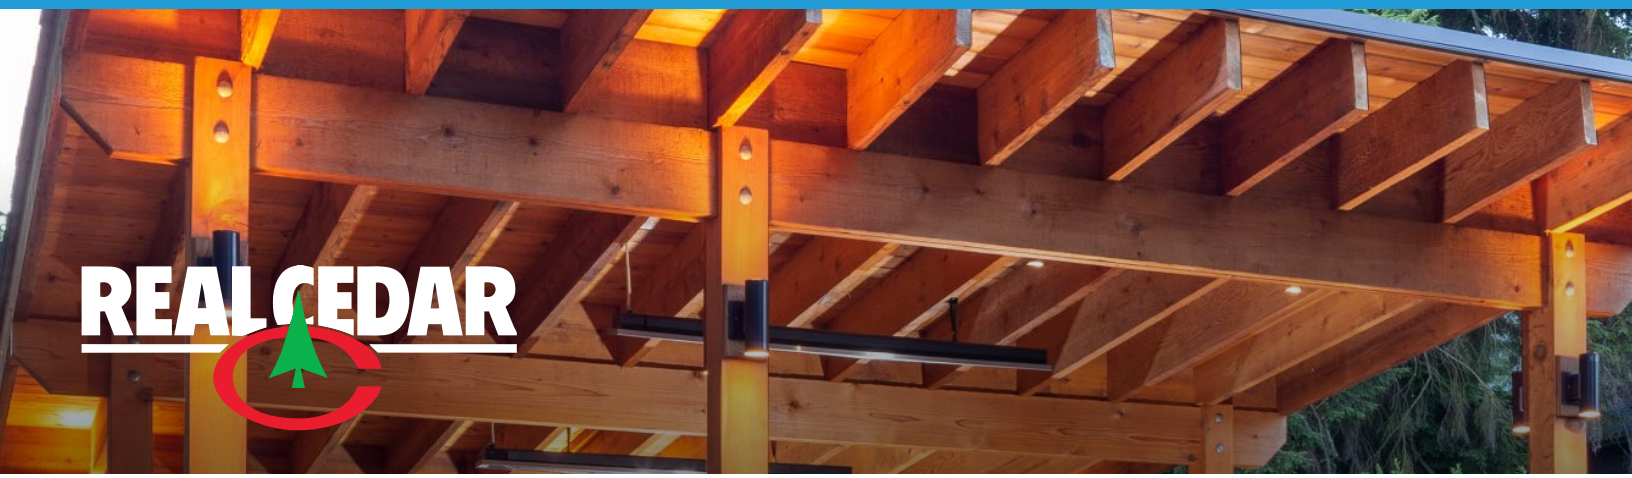
Cedar

Green Dimensional & Trim, Timbers & Pattern Stock



Add a Captivating, Elegant Touch to Architectural Designs.

Cedar seamlessly combines aesthetic charm with functional durability. With its alluring reddish-brown tones that mature into a captivating silvery hue over time, cedar offers innate resistance to decay and pests due to its natural oils and compounds.

Cedar's exceptional stability and workability make it a go-to choice for siding, decking, and roofing, ensuring structures maintain their appeal while weathering the elements.

Ordering Details

All RGH timbers and dimension available for surfacing upon request (Subject to lead time).

greenbar 2X®

Durable Fiberglass Rebar

Introducing **Greenbar2X Fiberglass Rebar**

Greenbar2X is next-generation fiberglass rebar engineered to deliver unparalleled strength, durability, and corrosion resistance, making it the ideal solution for residential and commercial construction projects. Designed to outperform traditional steel, Greenbar2X is perfect for applications ranging from small-scale jobs like patios, driveways, and foundations to large infrastructure projects such as pool foundations and retaining walls. Its lightweight design ensures quicker, more efficient installation, reducing both time and labor costs on-site. With superior resistance to corrosion, Greenbar2X minimizes maintenance expenses and significantly extends the lifespan of concrete structure. Greenbar2X is the smart, sustainable choice for projects that demand long-lasting performance and concrete reinforcement in even the harshest environments. It's time to start building stronger, faster, better!

Better than Steel Rebar

- ✓ STRONGER
- ✓ LIGHTER & EASIER TO HANDLE
- ✓ EASIER TO CUT
- ✓ WILL NOT RUST OR CORRODE

Disdero Lumber

Vertical Grain Hemlock

Vertical Grain Hemlock delivers a premium combination of strength, stability, and refined appearance for high-end residential and commercial projects. Featuring a straight, consistent grain pattern and smooth finish, it is an ideal choice for exposed beams, soffits, ceilings, and architectural applications where performance and aesthetics matter. Valued for its workability and timeless character, Vertical Grain Hemlock adds lasting beauty and dependable performance to every build.

STOCK

C/BTR VERTICAL GRAIN KD

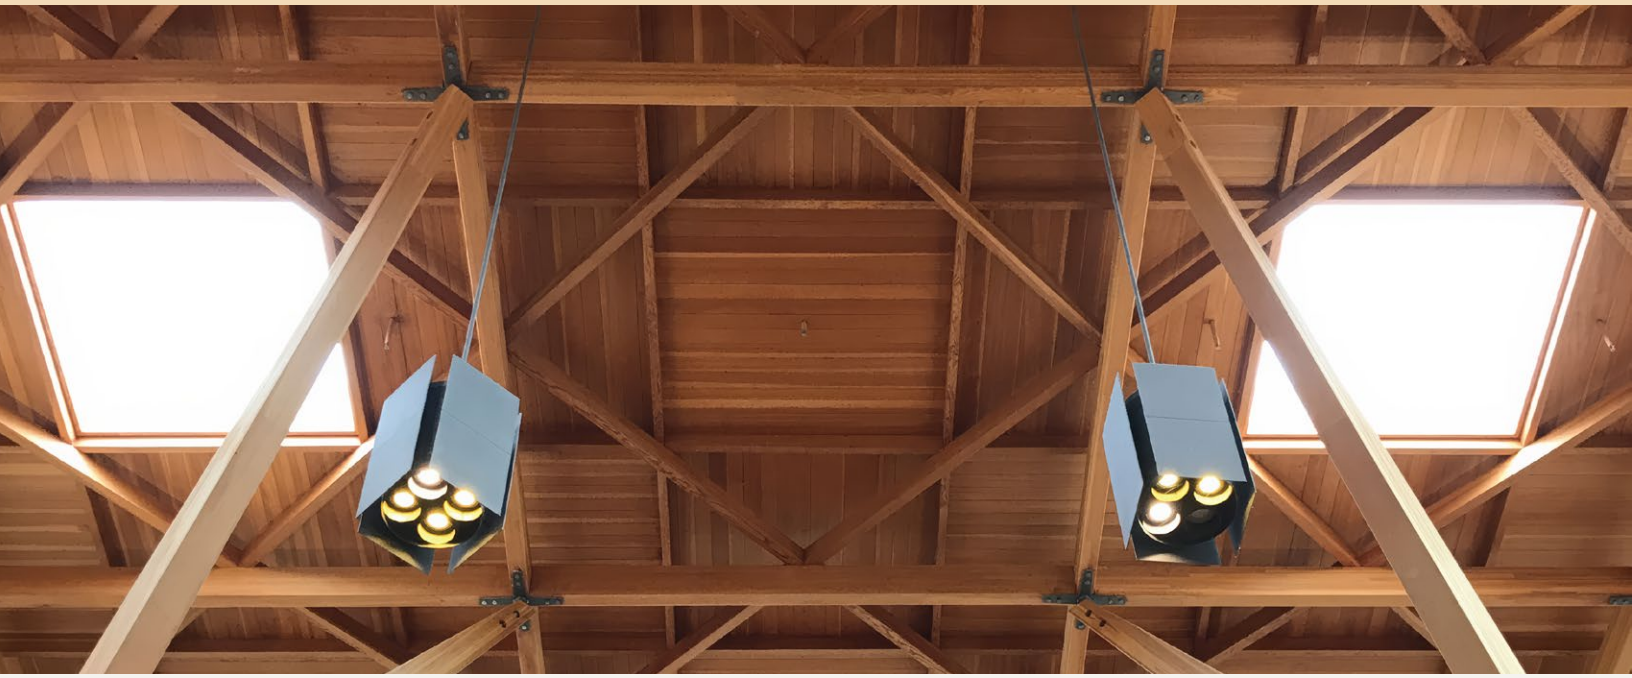
1x6 T&G Reversible Fineline Smooth/24 Grit
1x2 thru 1x12 S4S
5/4x4 thru 5/4x8 S4S
1x4 thru 1x8, 2x6 and 2x8 Full Sawn Rough
5/8x4 & 5/8x6 Paneling T&G EBCB/VJ1S

C/BTR MIXED GRAIN KD

5/8x4 T&G Paneling EBCB/EVCV
5/8x6 T&G Paneling WP4/Edge & Center V

Disdero Lumber

Lock-Deck Laminated Decking



Lock-Deck Laminated Decking combines structural performance with natural wood beauty to create warm, inviting ceiling and roof deck systems. Engineered for strength and dimensional stability, it is an ideal solution for residential, commercial, and recreational spaces where exposed wood architecture is desired. With its clean appearance, efficient installation, and proven reliability, Lock-Deck helps bring distinctive designs to life while delivering lasting value.
