To: Customers serviced from the Nashville distribution center

Subject: Warehouse Relocation

Dear Valued Customer:

My name is Paul Anderson, and on April 1st, I officially took over as General Manager of our Upper Southeast District, which includes the Nashville, Memphis, and Little Rock service areas. I am beginning to get out and travel with our Territory Managers, and look forward to meeting many of you in the coming weeks/months.

I am excited to formally announce that we have purchased a larger facility in Madison, TN, and we will be relocating next week. The new branch is located just north of Nashville off Interstate 65, and is just minutes away from our current facility. The physical address is:

700 Myatt Dr
Madison, TN 37115

After making a significant investment to improve the new site, we will begin full operations from Madison on Monday, May 16th. At over 150,000 sq ft of inside warehouse space, this new facility is much larger than our current warehouse, and it is all under one roof.... allowing us to store 90+% of our entire inventory indoors. We will be able to protect our inventory from the outside elements, load/unload our trucks indoors, and load your WILL CALLS inside as well.

These are very exciting times for BlueLinx as we enhance our ability to provide the quality products you need and position ourselves to take advantage of a rebounding housing market. We remain committed to the Nashville service area and will continue to provide the quality products and service that you have come to expect from BlueLinx.

Please feel free to contact me at any time with any questions or concerns. We appreciate your business and continued support!

Sincerely,

Paul Anderson
