# We stacked the deck

Choose the one option that has it all. This deck rocks!

Introducing ChoiceDek® Foundations™ – superior, environmentally friendly, composite decking built for value, durability and ease. It's the ideal choice for shoppers who want a value option for composite decking that is stain, scratch, mold and mildew resistant. Ask about our Special Order program to find the perfect color to complement your outdoor living experience.

## Affordable is Beautiful

If you value “value,” look no further.

ChoiceDek® Foundations™ is smartly priced, and our long-term benefits really add up. Our deck boards are wider and thicker for enhanced stiffness, durability and flexibility. Since our product is made from 95% recycled materials, we can help save the planet while saving you money.

## Proven Performance

Accept no imitations or limitations.

ChoiceDek’s advanced technology resists stains, mold and mildew all the way to the core. Our boards can be used in any non-structural application. Install them on or in the ground and even underwater.

Check out our unique engineered profile that creates less weight while adding stiffness. It also allows air circulation between the deck boards and framing to reduce damaging condensation build up. Accept no imitations or limitations.

## We’ve Got Your Back...Yard

Our decking stands up where others don’t.

Our easy-to-understand 25-year warranty protects against rot, termites or insect damage. ChoiceDek doesn’t void your warranty if you allow the material to be in ground contact or in water. Our warranty is simple, clear and easy to understand. What you see is what you get. Visit our website at [www.choicedek.com](http://www.choicedek.com) for details.

# A deck of a different color

Make this deck uniquely yours.

Available exclusively at Lowe's, the wide range of ChoiceDek® Foundations™ decking and railing products gives you the flexibility to create a truly distinctive, custom deck. Expertly designed to be safe and easy to work with, every piece is created with an unmatched level of durability. Our boards come in 8 (only available in Beach House Gray), 12, 16 and 20 ft. standard lengths. Feel free to stretch your imagination with various color combinations.

## COLORS:

We offer a variety of colors and matching railing systems to complement any home. Some are in stock today; others can be special ordered simply and quickly.

Beach House Gray: #221437

Coastal Redwood: #222212

Harvest Brown: #228692

## The Easy Way Out

Easy to install. Easy to Clean. Easy on the eyes.

Get into the groove of easier deck installation. If you are used to working with wood, you already know how to work with ChoiceDek® Foundations™. Our new profile accepts hidden and/or traditional fasteners or screws, and you don't have to worry about installing the screws too deep. See our installation instructions on [www.choicedek.com](http://www.choicedek.com).

Our new embossed texture not only looks like natural wood grain, but it is also easy to clean. Our decks do not require painting, sealing or staining. So, don't be afraid of messy barbecues. Ketchup and mustard spills just wipe away.

Simply perform periodic cleaning with soap, hot water and a soft bristle brush. The best time to clean is after installation and semi-annually (spring and fall) to remove any debris. For additional cleaning instructions as well as specific stain removal, please visit our website at [www.choicedek.com](http://www.choicedek.com) or contact our ChoiceDek Customer Service Department at 800-951-5117.
