Our Company

With over three decades of experience, BW Creative Wood Industries Ltd is one of the world’s leading manufacturers of railing systems, components and accessories. With an international reputation for quality and innovative customer solutions, our focus is on providing our partners with a complete customer solution. This is a dynamic experience that begins with being customer focused. Through building a deep understanding of our customers and their unique businesses we can bundle our products and services to provide individually customized solutions to help our customers achieve greater success. Staying focused on railings while working across international markets and with market leading customers provides us with unique insight into emerging trends and innovations. We are uniquely positioned as a manufacturer and supplier of both interior and exterior railings and thereby able to offer superior solutions and products to our customers.

Our Products

Under the brand name RAIL SIMPLE, BW Creative Wood Industries Ltd offers an industry leading range of interior and exterior railing systems, components and accessories. Whether you are looking for the versatility of clear hemlock, the timeless beauty of oak, the natural warmth of western red cedar, the rustic charm of treated lodge pole pine, or the time savings of pre-primed, the premium quality of our products is always on display.

One of the product lines that sets RAIL SIMPLE apart is our Railing Kits. Offered for both interior and exterior application, RAIL SIMPLE railing kits provide time savings in a box. This moves well beyond simply packing components in a box.

We pre-select premium rail to eliminate call backs, we profile and pre-drill the railing for quick assembly eliminating the need for measuring baluster spacing, drilling holes or attaching connectors and we include quick mount rail brackets with screws to simplify the whole process. Railing Kits are installed in minutes not hours. Simple to buy, simple to install, simply beautiful.

We provide you with the key selling SKUs. From contemporary to traditional, from metal to wood, from components to kits and all the accessories, we offer superior solutions to help you achieve success.

The Environment

While our certification to standards set by the Forest Stewardship Council (FSC) and the international Program for Endorsement of Forest Certification (PEFC) shows our commitment to the environment, the fact that we were the first in our industry to be FSC certified some 15 years ago shows that it is in our roots. We utilize wood in our railing systems not just for its warmth, beauty and strength but also because it is the most environmentally logical choice as the most renewable, re-useable and recyclable resource we have today. Wood is nature's most infinite, sustainable, least energy consumptive material. It is our responsibility to make wood a major part of our product lines.

CLEARVIEW INSTALLATION

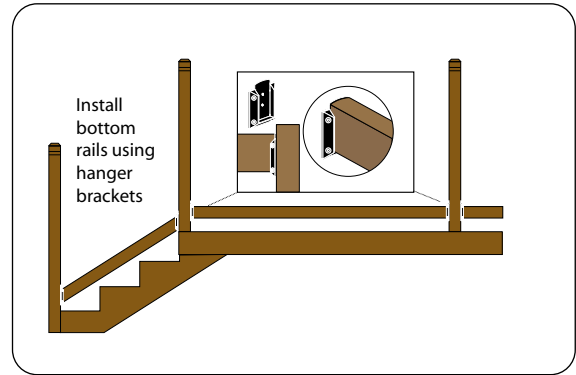

Clearview has been designed to offer a clear unobstructed view of your great outdoors. Made with 5/16" clear tempered safety glass, Clearview is 25% thicker than typical glass railing sections.

This stronger glass is surrounded with a revolutionary new railing system offering the ultimate in simplicity and low maintenance. This unique and innovative railing system allows you to simply place the 6" wide glass panels into the pre-engineered rail slots. The warmth and beauty of clear western red cedar with clarity of tempered glass. Seven rail slots, seven glass panels, six on stair kits. It's that easy.

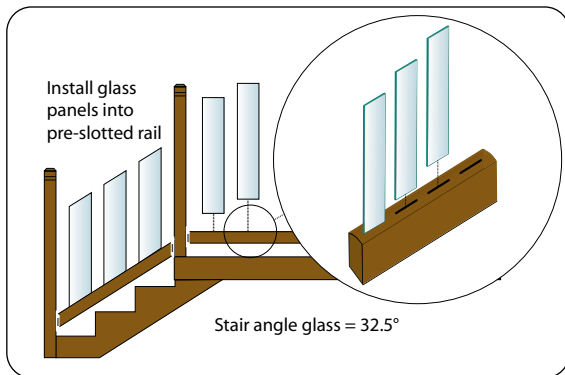

1 Install newel posts

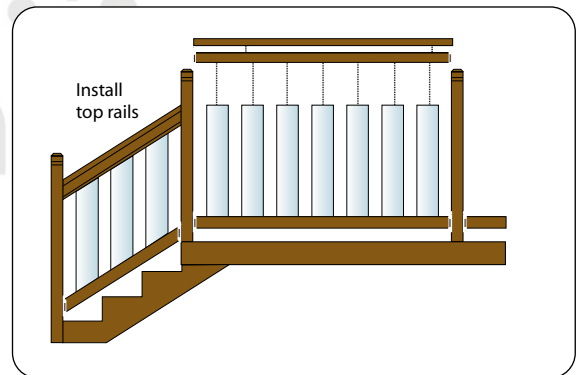

2 Install bottom rails

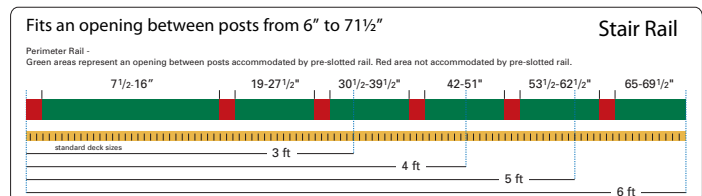

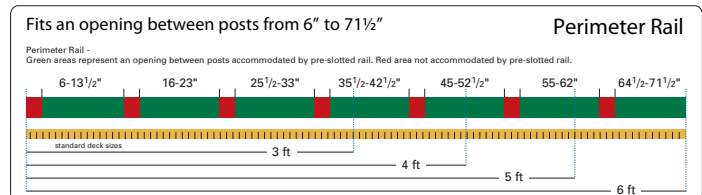

3 Install glass

4 Install pre-slotted top rails & cap rails

EXTERIOR PRIMED

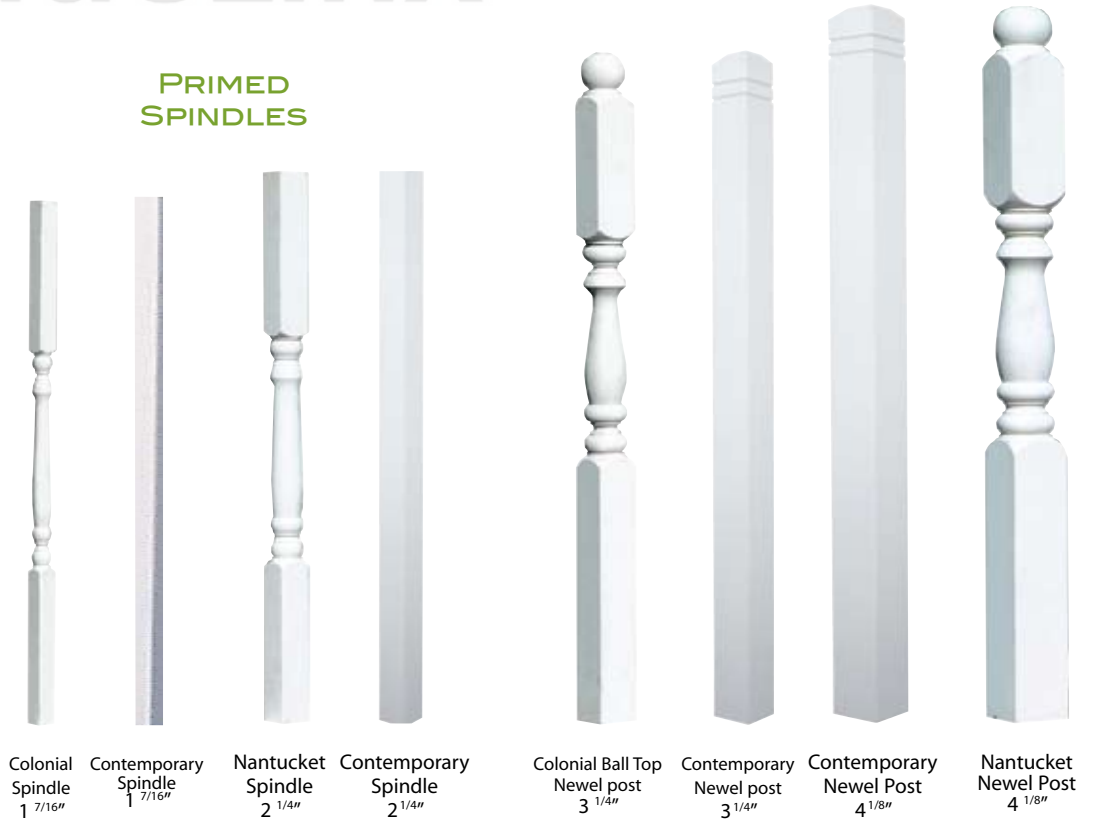

Always build from the base up. Starting with a premium factory prime coat not only significantly reduces time and labor in preparing your components for painting, it ensures that you start with a premium quality base prime coat which you can apply your premium quality exterior paint. Any surface coating can only provide protection if it is maintained at all times.

BlueLinx

PRIMED NEWEL POSTS

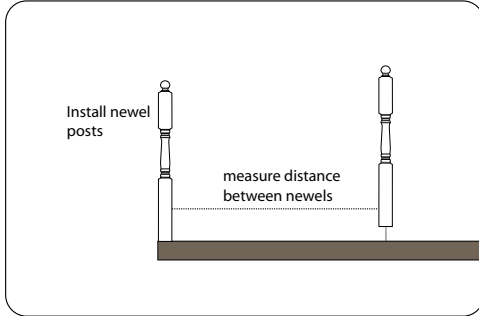

PRIMED SPINDLES

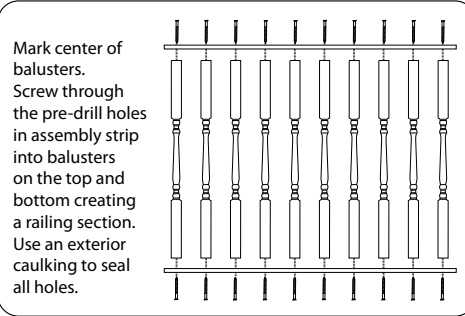

Therefore immediately re-prime and seal any surfaces that are cut or punctured with a high quality exterior primer followed by a high quality exterior top coat allowing each surface to dry before applying the next. Surface holes (nails or screws) can be sealed with a high quality exterior caulking.

------------	----	----	-----

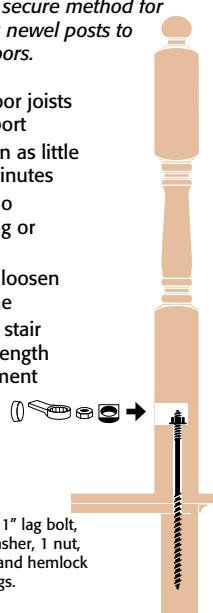

Rail Simple offers a broad range of interior railing styles including the contemporary Mission Series, the classic Colonial series, and the innovative new Axxys™ Railing System which combines Hemlock and powder-coated metal balusters in a do-it-yourself system.

INTERIOR FASTENERS

1 SURE-TITE™ NEWEL FASTENING SYSTEM

The most secure method for mounting newel posts to nished oors.

- Uses floor joists for support
- Installs in as little as 10 minutes
- Needs no mortising or coping
- Will not loosen over time
- Exceeds stair code strength requirement

Contains: 1 1" lag bolt, 1 curved washer, 1 nut, 1 1/2" oak and hemlock tapered plugs.

HW9507000W

2 RAIL & POST FASTENER

Fastens hand rails to posts and posts to stairs

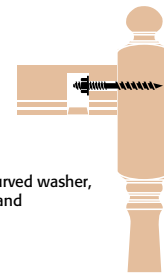

Contains: 1 lag bolt, 1 washer, oak and hemlock tapered plugs.

HW9515000W

3 RAIL-BOLT FASTENER

Fastens hand rails to posts and fittings to rails.

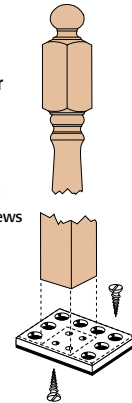

Contains: lag, curved washer, angled nut, oak and tapered plugs.

HW9516000W

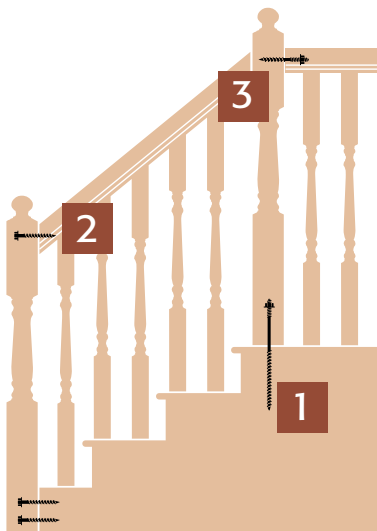

4 NEWEL PLATE FASTENER

Use under carpet, over concrete, over finished floors.

Contains: Heavy 3/16" plate, 13 mounting screws
