

Ultimate Protection Against Wind, Air and Moisture.

BlueLinXCo.com

Commercial grade for
severe weather.

PROLinX[®]
BUILDING WRAP *Advantage⁺*

*Our premium, mid-perm
protection outperforms
the competition.*

Breathable and easy-to-install, ProLinX[®] Advantage Plus is a non-perforated, non-woven, permeable membrane with unique smart-perm technology that reduces inward vapor solar drive for uncompromising protection from the effects of harsh weather.

BLUELINX
DELIVERING WHAT MATTERS™

Benefits:

- **Higher performance** Building wraps made of non-perforated membranes offer the highest level of performance against wind, air, and moisture.
- **Breathable Membrane** If moisture gets trapped in the walls, it can destroy the integrity of your insulation. Our unique, micro-porous, “breathable” membrane allows moisture vapor to pass through without becoming trapped in the wall cavity to provide the utmost in air and moisture control.
- **Surfactant resistant** Not affected by pressure washing, jobsite chemicals, or sugars from tree sap and wood sidings, unlike some other products.
- **Superior strength** Its non-perforated, non-woven polyolefin composition gives ProLinX[®] Advantage Plus superior strength.
- **Longer UV Resistance** Special ultraviolet stabilizers protect it from the sun’s harsh rays. In fact, ProLinX[®] Advantage Plus is protected against UV rays for up to 9 months.
- **Designed translucence** ProLinX[®] Advantage Plus can be installed right over the sheathing, and because you can see through it, it makes framing members easy to find.
- **Recognized as an air barrier** Compliant with IRC and IBC as an air barrier.
