Funder America (FAI) is one of the oldest, largest, and most diversified TFM panel and component manufacturers in North America.

Since 1973, Funder has been drawing on its century old Austrian heritage to bring vertically integrated, innovation, technology, and flexibility to our customers throughout the United States.

Headquartered in Mocksville, North Carolina, Funder has three strategically located facilities. The Mocksville facility includes Funder's exclusive saturation business, large volume panel lamination, full component capabilities and recently added a revolutionary state-of-the-art, powder coating facility. In addition, Funder has large volume panel lamination facilities in Hope, Arkansas, and Sebring, Florida.

Whatever your decorative surface needs, Funder has an innovative cost-effective solution.
