

WHY VINYL SOFFIT & FASCIA

Your home is the place you make your memories, and any investment you make in your home should last just as long.

With Georgia-Pacific Vinyl Siding, you can be sure that your investment will last. A virtually maintenance-free siding solution, vinyl soffit requires only the occasional washing with a garden hose to keep it looking like new. Plus, it can be used on practically any type of home, including homes with brick, wood, vinyl, or fiber cement siding.

Offered in a range of Net Free Area (NFA) ratings depending on the ventilation and aesthetic requirements for your specific application, Georgia-Pacific Vinyl Soffits offer the choices you need to meet building code specifications.
