Cambridge

LIMITED LIFETIME¹ ARCHITECTURAL SHINGLES

Do you appreciate beautiful options? Then look no further than the Cambridge Collection, IKO's most popular shingle among contractors and discerning homeowners alike. Cambridge shingles add architectural interest that boosts your home's curb appeal. With their dimensional profile and deep shadow bands which mimic the look of wood shake construction, they can create a high-end designer look for your home, all at an affordable cost.

Choose from a huge array of colors to coordinate perfectly with your home's style; whether rustic or urban, traditional or modern. Even if you live in a maritime climate or area of high humidity, you can enjoy having a gorgeously colored roof free from streaks and discoloration.

Cambridge premium architectural laminated shingles come in IKO's special Advantage size. They're bigger and heavier than most competitors' products of comparable quality. Constructed with one of the heaviest mats in the industry for their class, Cambridge is engineered to withstand the elements for years, making them among the most durable shingles you can buy.

When you choose Cambridge, your new roof will keep on looking as great as it performs.

Cambridge IR

Impact-Resistant

LIMITED LIFETIME¹ ARCHITECTURAL SHINGLES

Conventional shingles perform well against wind, rain and average temperatures. But, if you live where conditions such as extreme cold, hail, high winds and severe storms prevail, you and your home may need the ultimate weather protection of Cambridge IR shingles.

IKO takes its resilient, heavyweight fiberglass mat and reinforces it with an extra coating of IKO-SBS-modified asphalt. This gives Cambridge IR exceptional flexibility, tear-resistance and a UL 2218/FM 4473 Class 4 Impact Resistance rating.

What does that mean? In independent laboratory tests, a 2" steel ball is dropped from a height of 20' on shingles, or ice balls are fired at high-velocity towards shingles to make sure they resist the impact without damage, and our shingles have passed these tests. Discuss this with your insurance agent because depending on where you live, a roof of Class 4 Impact Resistance rated shingles may entitle you to a discount on your premium.

Cambridge IR is available in IKO's Advantage size so it's fast and easy for your roofer to install. Deep shadow bands evoke the look of natural wood shakes. Available in 5 popular color choices, Cambridge IR shingles are perfect for any style of home.

For superior weather and impact resistance, insist on Cambridge IR.

- Built-in algae-resistant³ granules
- Superior protection against wind uplift and water penetration
- UL 2218/FM 4473 Class 4 Impact Resistance rating^{4,5} against hail
- 15-Year IKO Iron Clad Protection¹
- Limited Lifetime Warranty¹
- Includes up to 110 mph (177 km/h) Limited Wind Warranty¹
- Optional Limited High Wind Warranty Upgrade of 130 mph (210 km/h) available^{1,2}

Design your own roof with **ROOFViewer™**

Start by visiting our website at www.iko.com and try our exclusive **RoofViewer™ Interactive Shingle Selector Tool**. You can select a style of home and accessorize it with different colors of roof and trim or even upload a picture of your actual house!

Once you've narrowed down your choices, ask your roofing professional or IKO Sales Representative for actual samples of the shingles you're considering. Printing processes are close, but nothing compares to the real thing and colors on the computer are even more prone to variation.

Treat the shingle samples as you would paint chips and view them in different lighting conditions at different times of day. If you're going to select new trim or siding, take samples of those outdoors, too, and see how all the elements work together.

Choosing the right color is the most difficult decision for most homeowners. A new roof is a significant investment and you'll have to live with your color choice for a very long time. IKO offers you many beautiful color palettes, so take your time to find the one that's right for you and your home. You'll enjoy the results for years to come.

Shingles alone are usually not enough to protect your home. IKO has developed a superior multi-layered roofing components incorporating our industry-leading products.

1. Eave Protection - GoldShield, ArmourGard, or StormShield Ice & Water Protectors

IKO's Ice & Water Protectors provide a second line of defense against water penetration due to ice dams or wind-driven rain and the costly damage it can cause. This product is also strongly recommended for sealing around vents, low pitch areas, ridges, hips, rake edges, chimneys, dormers, vent stacks, and skylights.

2. Underlayment - RoofGard-Cool Grey or Stormtite® Underlayment

Use our innovative RoofGard-Cool Grey or Stormtite® synthetic underlayment for total deck protection.

3. Roof Starters - Leading Edge Plus Starter Strips

Fast, easy and convenient. IKO's Starter Strips are already cut to size saving valuable time during the installation of the first course of shingles. Compatible with all existing IKO Shingles, Leading Edge Plus includes a sealant strip at the bottom edge allowing for a tight seal.

4. Ridge Cap Shingles - Hip and Ridge, Hip & Ridge Plus, Hip & Ridge 12 or Ultra HP™ High Profile Ridge Cap Shingles

Ridge cap shingles are required where roof planes meet, and provide additional protection along these high stress areas of the roof, enhancing your home's aesthetic appeal by accentuating the roof line.

^{††}Cambridge Super White is CRRC® listed and ENERGY STAR® qualified in the US.

Shingle Swatches and House Photography shown are as accurate as modern printing processes allow. Shingle swatches shown do not fully represent the entire color blend range of the shingles. To ensure complete satisfaction, please make your final color selection from several full size shingles and view a sample of the product installed on a home. Be sure to look at the color sample of all material in natural sunlight, at different times of day to ensure that your color choices are complementary.
