

Sculpted by nature. Crafted by hand.

2016
PRODUCT GUIDE

THE NATURE OF OUR STONE.

Ply Gem Stone is molded directly from nature. The unique shapes, natural colors and rich textures result from our artisanal approach and attention to detail.

It starts with our molds. They're larger than most, with a non-repeating stone rate of 100 sq. ft. The way we see it, a greater variety of shapes and sizes is more attractive and more natural.

To ensure lasting color, we use liquid tints. Our cast stones absorb the liquid producing deep, rich hues that resist fading.

The quality of our colors is matched by the durability of our stone. Twice as dense as the industry standard, Ply Gem Stone meets strict codes for strength and durability — a fact confirmed by the ICC Evaluation Service. It's why we confidently back our stone with a 50-Year Limited Warranty. And isn't that what you want in a stone veneer? Beauty that can stand the test of time.

Standard Accessory Colors

All accessories are available in Brown, Charcoal, Country, Cream and Lime

Brown 8008

Charcoal 8081

Country 8017

Cream 8018

Lime 8037

With a choice of five subtle hues, it's easy to coordinate our stone accessories with any of our stone colors.

RAINSCREEN

Moisture Drainage System

When building with stone, stucco, brick, vinyl, cedar, or fiber cement siding, it's important to use an effective rainscreen system that protects against drainage and ventilation. Because when moisture finds its way into any wall system, it penetrates the outer surface of the wall and becomes trapped. This creates a perfect environment for toxic mold growth and possible structural failure. Luckily, Rainscreen Moisture Drainage System is specifically designed to keep almost any siding material dry and protected.

	Part#	Coverage Area	Weight	Rolls per Pallet
6mm roll	75611310	200 sq ft	14 lbs	18
10mm roll	75611311	103 sq ft	16 lbs	18

Application products

75611117 – Type “S” Mortar (75 lb/bag)

75611118 – QuickCrete (80 lb/bag)

75611210 – Galvanized wire lath (18 sq/ft)

Coverage and color

Ply Gem Stone is sold in boxes of 10 square feet* of coverage with a half-inch mortar joint. Dry stack installation will yield 8.5 square feet of coverage. Every effort has been made to ensure the stone colors on our printed and online materials are as close to the actual stone as possible. However, please be advised, photography, printing, and viewing conditions may alter perception of color. Consult your distributor or sales representative for product samples.

*2" brick yields 5 square feet of coverage.
