PLY GEM TRIM AND MOULDINGS

Replacing Wood For Good™

Beauty is in the details.

OUR CELLULAR PVC TRIM ADDS
CHARACTER AND CHARM TO ANY
EXTERIOR, WITHOUT THE MAINTENANCE
AND REPAIR TRADITIONAL TRIM REQUIRES.

Windows and doors. Gables and eaves. Corners and columns. Accenting them with Ply Gem Trim and Mouldings can give your home stylish charm. Without requiring costly maintenance and repairs. In this brochure, we show you why more and more homeowners prefer cellular PVC trim over traditional trim options and how Ply Gem Trim and Mouldings can transform your home's exterior.

DECORATIVE MOULDINGS

PROVIDE AN ARCHITECTURAL, STYLISH FINISH TO YOUR TRIM DETAIL. OUR MOULDINGS ARE A PRECISE COLOR MATCH TO PLY GEM TRIM PRODUCTS FOR A PREMIUM, COORDINATED LOOK.

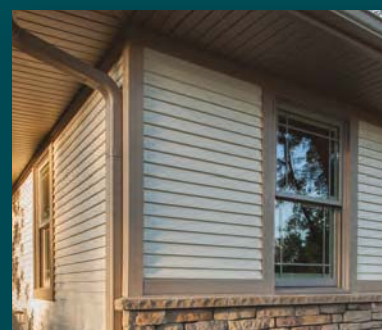

A good choice now. A great choice years from now.

Unfinished, Ply Gem trim boards look like painted wood. If you prefer to paint them, Ply Gem trim boards hold paint much better than wood, especially in damp climates and extreme temperatures. In short, Ply Gem Trim looks better longer.

BEFORE

AFTER

Dense Core Technology

Our exclusive micro-ingredients and tight process controls ensure a dense, fine cell structure consistent from board to board.

The first choice for lasting beauty.

Traditional wood trim can be attractive until it's time to clean it. Paint it. Repair it. And

eventually replace it. Within a few short years, your initial investment may not look so appealing.

ON AVERAGE, WOOD TRIM NEEDS TO BE REPAINTED AFTER SEVEN YEARS AND REPLACED AFTER 15 YEARS.

IN DIRT TESTS, OUR WOODGRAIN FINISH STAYED CLEANER THAN OTHER CELLULAR PVC TRIM PRODUCTS.

With Ply Gem Trim and Mouldings, you can forget about costly maintenance.

Our cellular PVC products don't absorb moisture so they won't rot, crack or warp. Unlike engineered wood, they don't attract insects and don't contain chemicals like treated wood.

And if you decide to paint them, Ply Gem Trim and Mouldings hold paint much better than wood. You'll probably grow tired of the color before you have to repaint.

1. CHOOSE SMOOTH OR REVERSIBLE SMOOTH/WOODGRAIN TEXTURE. CAN BE INSTALLED IN NATURAL WHITE FINISH OR PAINTED
2. HOLDS PAINT MUCH BETTER THAN OTHER TRIM PRODUCTS
3. WON'T ROT OR WARP LIKE WOOD OR CRACK LIKE FIBER CEMENT
4. DOES NOT ATTRACT INSECTS AND PESTS
5. CUT ENDS DO NOT REQUIRE CAULKING, UNLIKE WOOD AND FIBER CEMENT
6. CAN BE SHAPED INTO ARCHES MUCH EASIER THAN OTHER TRIM PRODUCTS
7. LIMITED 30-YEAR TRANSFERABLE WARRANTY PROTECTS YOUR INVESTMENT

The Designed Exterior™ by Ply Gem

Ply Gem Trim and Mouldings are part of an extensive line of exterior building products engineered for low maintenance and lasting beauty.

Part of a complete exterior solution.

PLY GEM TRIM AND MOULDINGS COMPLEMENT ALL SIDING MATERIALS INCLUDING PLY GEM SIDING AND STONE VENEER.

In the following pages, we show you how our products can highlight your home's best features or dress up a plain façade. To show you a range of possibilities, we've included the most popular architectural styles from our Designed Exterior Collection. The homes shown in this section show a variety of products and key features of these styles. If you're building a new home, use our examples as a guide. If you're remodeling, consider how trim can enhance your home's architectural style. Explore the possibilities. Turn the page and visit plygemtrim.com for more ideas.

Ply Gem. A leader in low maintenance.

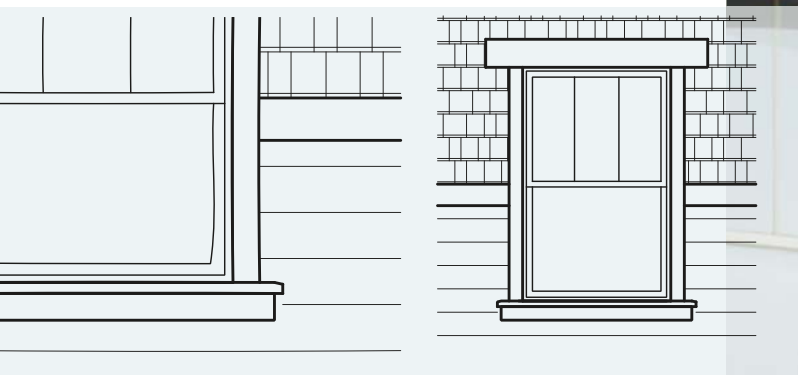

Seventy years ago, we began making low maintenance products for home builders and remodelers. Today we're one of the largest manufacturers of exterior building products in North America with an extensive line of low maintenance siding and accessories, windows, gutters, stone veneer, fence and railing. Like all Ply Gem products, our cellular PVC Trim and Mouldings are subject to strict quality controls and backed with a longstanding warranty. They're designed to work together with just about any exterior building material. So no matter how you side your home, Ply Gem Trim and Mouldings can provide the finishing touch.

Arts and Crafts

CRAFTSMAN

LOW-PITCHED ROOFS, EXPOSED END BEAMS AND SQUARE OR TAPERED PORCH COLUMNS
 TYPIFY THE CRAFTSMAN STYLE.

Extended Window Header & Sill

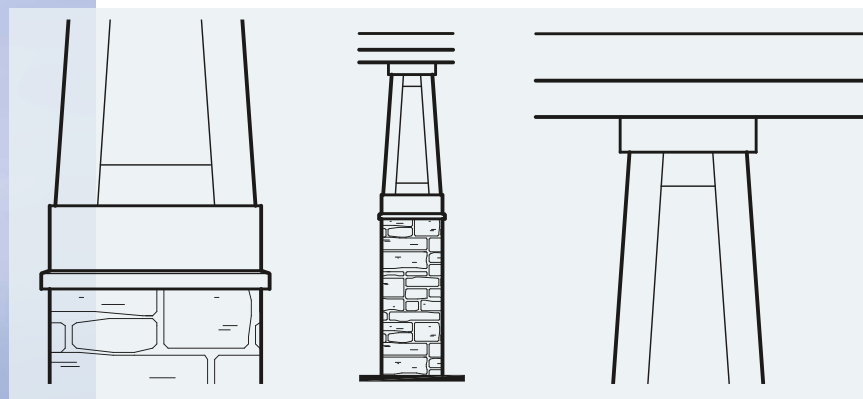

Wide header and sill trim extend the horizontal lines of windows and doors.

1. 5/8" x 7-1/4" placed over 5/4" x 7-1/4" trim extends out several inches on both sides.
2. 5/4" x 3-1/2" trim is used on either side of the window. For vinyl siding, use notched trim boards to receive the siding.
3. A sub sill nose moulding extends 3" beyond 5/4" x 3-1/2" trim board and creates the lower sill of the window.

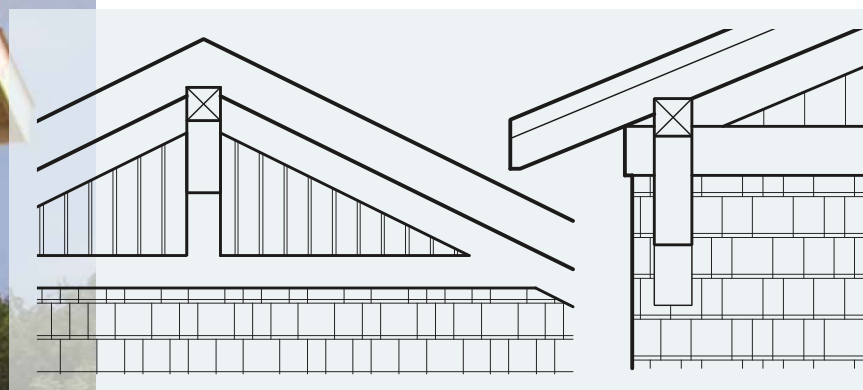

SMOOTH OR WOODGRAIN
TRIM BOTH COMPLEMENT
THE CRAFTSMAN STYLE.

Tapered Column

Porch columns can be tapered on stone piers.

1. Use 1" x 4' Sheet to form the column, with 4" corners providing the panel shape.
2. Use 5/4" x 3-1/2" trim between the corners (top and bottom) and as a trim around the top. 5/8" x 5-1/2" wide trim forms a base around the bottom, atop the stone base.

Gable Detail

Gables feature bracket detail and false roof venting.

1. Bead board placed vertically creates the look of a vented gable area.
2. 5/8" x 7-1/4" fascia trim highlights the lines of the gable; 5/4" x 5-1/2" trim lines the bead board and bracket detail.
3. Brackets can be formed by fastening multiple pieces of 5/4" board or sheet into the desired bracket style.

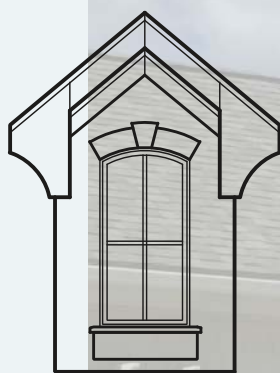

DESIGN IDEAS AND HOW-TO AT
plygemtrim.com/ideas-craftman

Cozy Chateau

FRENCH COUNTRY

ELEGANT ARCHED WINDOWS
COMBINE WITH RUSTIC SIDING
AND STONE VENEER FOR A
FRENCH COUNTRY STYLE.

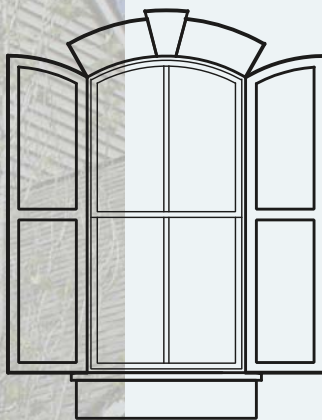

Elegant Dormer & Eaves Wide Trim & Mouldings

Dormers often feature wide trim, sheet and mouldings.

1. 1/2" sheet is used to create unique shapes like flared trim and cover wide areas like dormers.
2. 5/8" x 7-1/4" trim lines the gable, placed above crown moulding detail.

HORIZONTAL TRIM BOARDS SEPARATE
DIFFERENT SIDING STYLES, INCLUDING
STONE VENEER, WHICH ENHANCES A
FRENCH COUNTRY LOOK.

Arched Windows

Trim is heat-formed above arched windows and topped off with a keystone.

1. $5/4$ " x $7-1/4$ " trim is heated and shaped to run the curve of the window; the keystone is cut from $5/8$ " trim.
2. The window sill is formed from sub sill nose moulding over $5/4$ " x $7-1/4$ " trim.

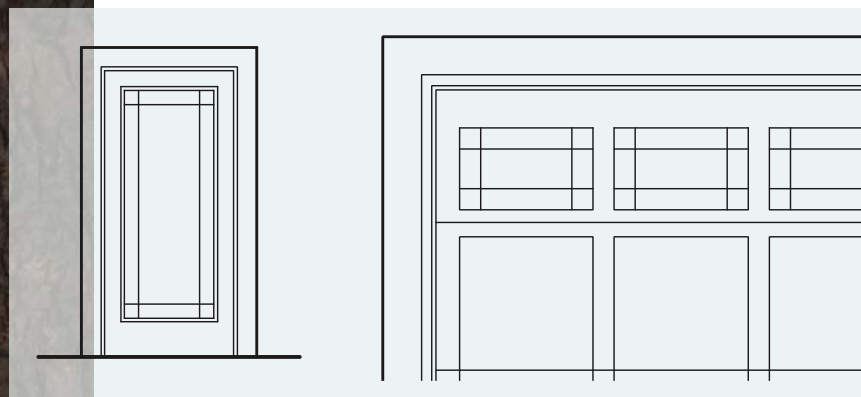

DESIGN IDEAS AND HOW-TO AT
plygemtrim.com/ideas-frenchcountry

Low Profile

PRAIRIE

HIPPED LOW-PITCHED ROOFS,
WIDE EAVES, SQUARE PORCH
SUPPORTS AND ROWS
OF CASEMENT WINDOWS
DISTINGUISH THE PRAIRIE STYLE.

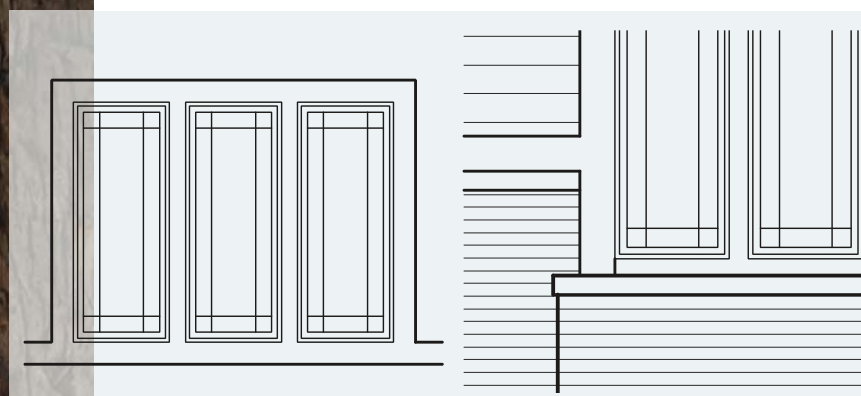

Wide Trim Around Entry and Garage Doors

Wide trim outlines entry and garage doors.

1. Doors are outlined on all sides with $5/4'' \times 5-1/2''$ wide trim; consider using notched trim to receive vinyl siding.

Wide Window Trim and Band Board

Wide trim outlines each group of windows.

1. Windows are outlined on all sides with $5/4'' \times 5-1/2''$ wide trim; consider using notched trim to receive vinyl siding.

Band boards accentuate the flat architectural style.

1. Use at least $5/4'' \times 5-1/2''$ wide trim board to separate different siding types and materials.

SMOOTH OR WOODGRAIN TRIM
BOTH COMPLEMENT THESE
LOW PROFILE STYLES.

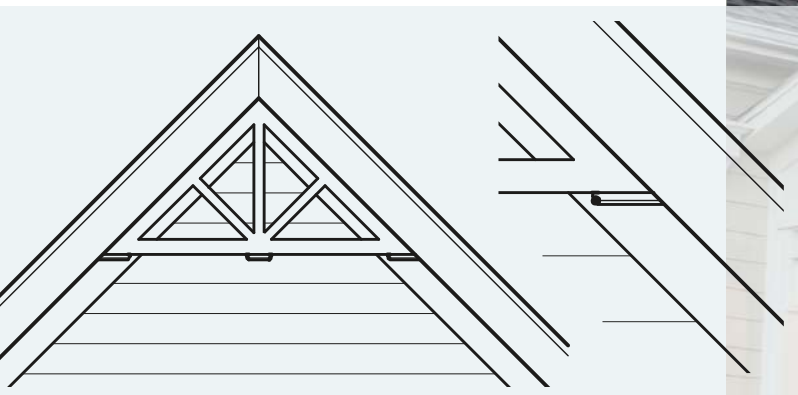

DESIGN IDEAS AND HOW-TO AT
plygemtrim.com/ideas-prairie

Gingerbread Charm

FOLK VICTORIAN

PORCH RAILINGS, FAN-TOP COLUMNS AND GABLE BRACKETS DRESS UP A HOME IN FOLK VICTORIAN STYLE.

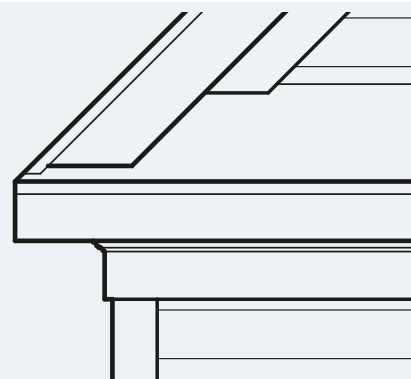

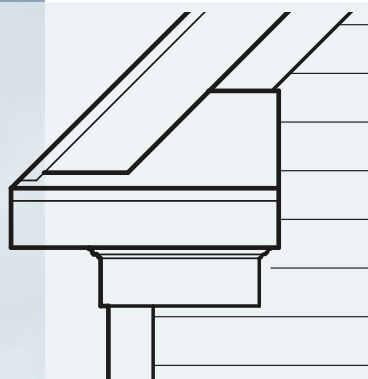

Gable Brackets

Gable brackets and mouldings add a cheerful decorative touch.

1. Cut 1" x 4' sheet to form a gingerbread pattern; glue and nail it under a 1" fascia board.
2. 5/4" x 5-1/2" trim board under the gable blends the detail to the gable itself.
3. Pieces of base cap trim add elegance to the gable.

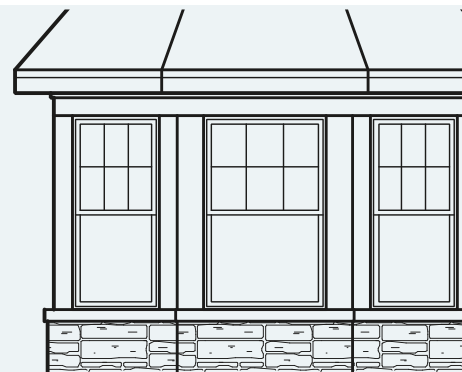

Complex Returns and Pigeon Roofs

Detailed eaves wrap around the corners and finish in complex returns.

1. 5/4" x 5-1/2" trim board under the gable finishes into detailed eaves constructed of bed mould over 5/4" x 5-1/2" trim.
2. Eaves may also extend out to a full pigeon roof.

Bay Window Detail

Bay windows add depth to the Victorian house style.

1. Cellular PVC sheet and wide trim boards are used to highlight the bay window structure.

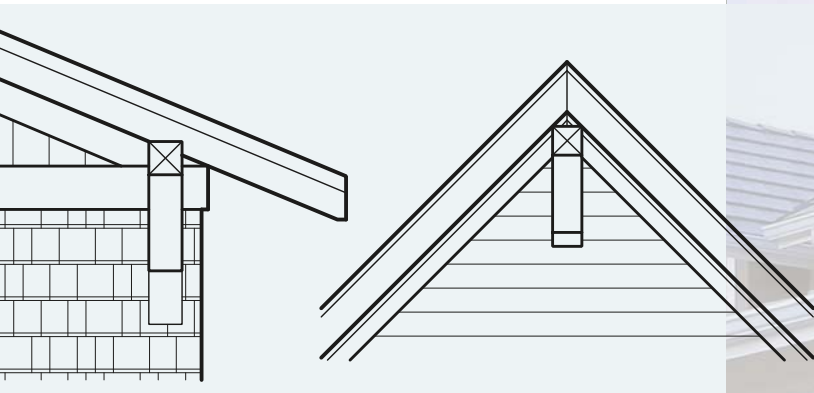

DESIGN IDEAS AND HOW-TO AT
plygemtrim.com/ideas-folkvictorian

Rambling Rustic

SHINGLE

THE SHINGLE IS REMINISCENT OF A SEASIDE VICTORIAN COTTAGE. RUSTIC STONE AND SHINGLE SIDING COMBINE WITH FLOURISHES SUCH AS HALF TOWERS, DORMERS AND OVAL WINDOWS.

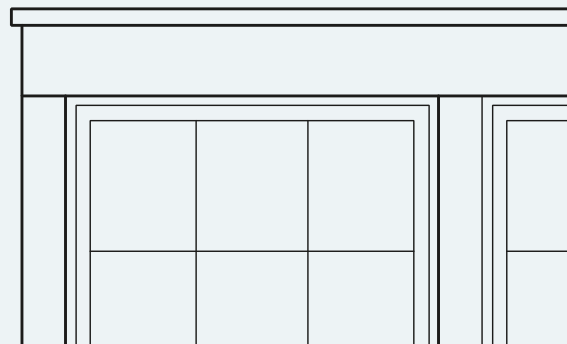

Gable Features

Gables feature decorative shingle accents and bracket detail.

1. Fascia detail is formed from 5/4" x 5-1/2" trim with 5/4" x 7-1/4" trim under the peak.
2. 5/4" x 7-1/4" trim creates shape and is highlighted by 2-1/2" brackets formed from Adams Casing moulding.

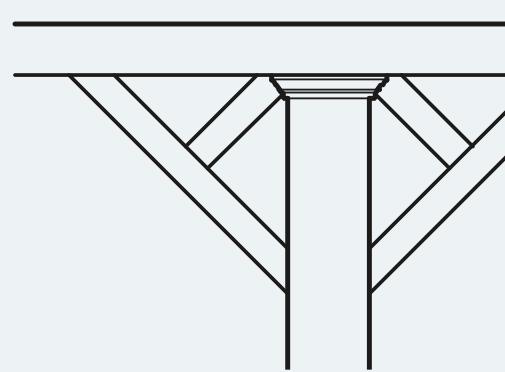

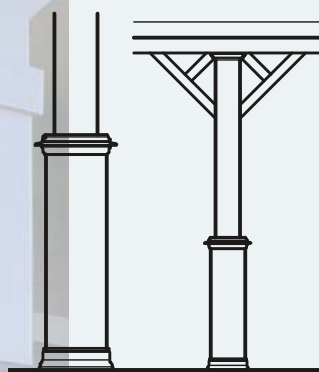

Wide Window Trim

Single or double hung windows are highlighted with wide trim and crown for the header.

1. $5/4'' \times 7-1/4''$ trim forms the window header topped with drip cap moulding. The sill is created from $5/4'' \times 7-1/4''$ trim with sub sill nose moulding detail.

Boxed Porch Columns

Boxed porch columns with angled top braces.

1. Columns can be created using $8''$ post wraps and accents and sheet products; or built like the Craftsman style tapered columns.

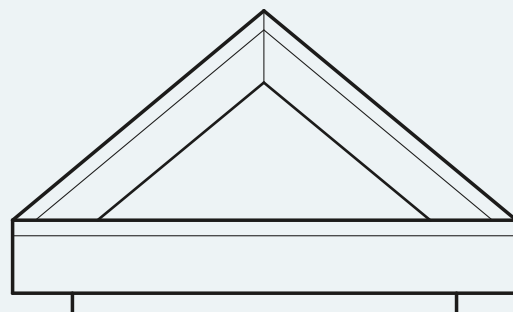

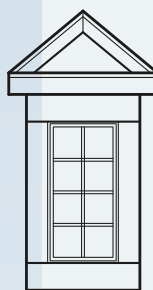

DESIGN IDEAS AND HOW-TO AT
plygemtrim.com/ideas-shingle

Stately Colonial

GEORGIAN STYLE

THE GEORGIAN STYLE IS SYMMETRICAL AND WELL-PROPORTIONED. IT'S ESPECIALLY POPULAR ALONG THE EAST COAST AND THROUGHOUT THE SOUTH.

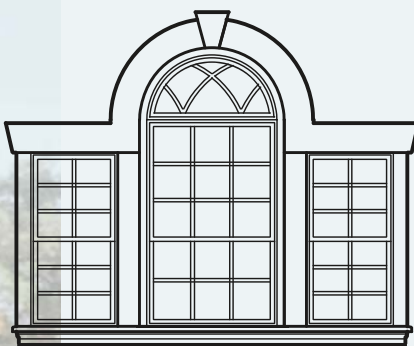

Dormer Windows

Pedimented dormer windows are trimmed with sheet and triangular peaks.

1. 1" sheets are placed in the gable and surrounded by 5/8" x 7 1/4" fascia trim.
2. 5/4" x 9 1/4" trim boards outline the top and bottom of windows; the sides are trimmed with 5/4" x 7 1/4" trim board.

Detailed eaves wrap around the corners and finish in complex returns, similar to those in the Folk Victorian style.

Arched Window Trim

Arched trim and keystones accent the Palladian windows.

1. 5/4" x 7 1/4" trim is heat-formed to outline the window's shape; may be accented with Adams Casing moulding along the top and sub sill nose along the bottom.

Trim Boards

All the beauty of wood without the maintenance. Cellular PVC trim can be cut, drilled and routed like wood. But unlike wood, it won't rot, warp or attract insects. There are endless uses, including fascia, frieze boards, window and door trim, deck edging and decorative accents.

5/4" PVC Sheet	8'	1"	4'
5/4" PVC Sheet	10'	1"	4'

Flange Relief Trim

Designed to keep the trim level when applied over windows with a nailing flange.

Corners

One-piece outside corners provide a square edge with no unsightly, rough seam. Available with or without J-notch in 12' or 20' lengths in woodgrain or smooth finish.

Post Wraps

Friction-fit design snaps together, requires minimal adhesive and easily fits around existing rails. Unlike other column wraps, there's no joint tape to remove after bonding.

Skirt Board

Cellular PVC skirt board provides the finishing touch without the worries of water damage. Available in smooth or woodgrain.

Notched Bead Board

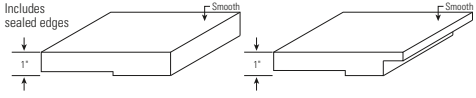

Reversible bead board looks great on a patio ceiling or as an exterior wainscoting accent. The reversible design provides two styles in one — edge/center bead on one side and v-groove on the other. Painting recommended.

Cortex® Fastening System

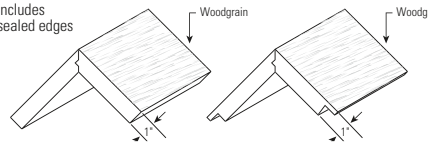

Install Ply Gem cellular PVC trim products in less time with plugs that match perfectly. Each box includes all the screws, setting tools and cellular PVC plugs needed for fastening.

All products are white, but easily paintable if desired.
