# Building Code Compliance

HB&G has updated our product testing to comply with changes to the Building Codes (IBC/IRC) and to the Acceptance Criteria for Fiberglass Columns. The 2 major changes that impacted PermaCast® and PermaLite® were:

- Eccentric Axial Loading – the new maximum allowable load values are based on eccentric (offset) axial load as opposed to concentric (centered) axial loading.
- Increased Safety Factor – the safety factor on the allowable load was increased from 2.5 times to 5 times

Eccentric loading of columns is not recommended by HB&G.

Acceptable Applications

Unacceptable Applications

Acceptable Applications

Unacceptable Applications

HB&G recommends following the installation instructions included with the product purchased. HB&G structural products conform to 2018, 2015, 2012, and 2009 IBC/IRC.

## Round Tapered PermaCast® Plain and Fluted
