# Weatherization & Insulation

Styrofoam, Sill Seal, Building Wrap & More

Let us make your next project a pleasure!  
Call your Blue Crew today – (770) 953-7575

## Cool in the Summer, Warm in the Winter, Dry All Year Long.

Elevate comfort, cut costs, and reduce environmental impact with our top-tier weatherization and insulation product offerings. Enjoy consistent indoor temperatures, lower energy bills, and a quieter, healthier living or working space. Explore now and experience the transformative benefits firsthand.

### Maximize your brand's impact with ProLinx® Building Wrap.

Dealers and builders can now promote their brand and attract local interest with state-of-the-art high resolution print technology.

#### No Set-Up Fee:

Choose from a wide spectrum of colors and gradients at no extra cost.

#### Alternating Messages & Images:

Impactful logos, custom messaging, and contact information all on one roll of any grade building wrap.

#### Flexible Order Size:

Mix two custom logos on same pallet.

# Poly Sheeting

Black and Clear — 1.5-10mil

# Concrete Accessories

Remesh, Rebar, Rebar Pins, and More

## All-Purpose Protection

Tough, pliable, and reliable protection against water vapor and foreign matter. Poly sheeting is lightweight yet extremely durable, and isn't prone to cracking, peeling, rotting, or mildew. Poly's permanent flexibility even at sub-zero temperatures allows for countless applications in construction, agriculture, and industry.

# Pine Boards & Pattern Stock

Southern Yellow Pine, S4S, Patten Stock

## Beautiful and Sustainable

Pine is the perfect choice for a variety of projects from flooring to walls, ceilings and more. The natural beauty of pine combined with its workability and value make it one of the most popular boards on the market. Fast growing pine is also the most environmentally friendly species on market.

# Gorman

Elite and Common Boards

## Showcasing the Pure Beauty of Natural Wood.

Gorman lumber is carefully graded above the NLGA or WWPA industry standards, has a furniture finish that is smooth and splinter-resistant (The Gorman Edge) and is heat treated and kiln dried to ensure a stable board, not prone to bowing or cracking.

### The Gorman Edge:

#### Different Grades:

All 1" boards are carefully graded with smaller and fewer natural traits allowed in the higher grades of wood.

#### Different Package Sizes:

All Gorman products are wrapped in protective tarp to ensure clean stock and better inventory control.

- ✓ Smooth surfaces & soft edges
- ✓ Fewer slivers
- ✓ Less chipping
- ✓ Waxed edges to reduce splits
- ✓ Slow & gentle drying to create a flat & stable board

## Add a Captivating, Elegant Touch to Architectural Designs.

Cedar seamlessly combines aesthetic charm with functional durability. With its alluring reddish-brown tones that mature into a captivating silvery hue over time, cedar offers innate resistance to decay and pests due to its natural oils and compounds.

Cedar's exceptional stability and workability make it a go-to choice for siding, decking, and roofing, ensuring structures maintain their appeal while weathering the elements.

### Ordering Details

All RGH timbers and dimension available for surfacing upon request (Subject to lead time).

Customer timber sizing available in RGH or S4S (Subject to lead time).

**We offer Custom Milling!**

## Real wood, only BETTER.

- Real Wood
- Primed and Ready to Paint
- Industry Leading Finish
- Ideal for Multiple Applications

# MoistureShield®

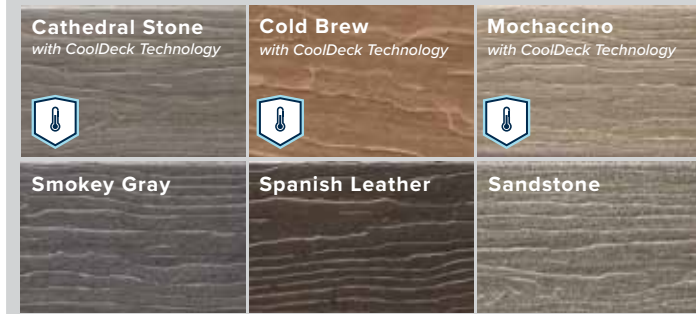

Composite Decking

## Live outside the ordinary.

MoistureShield® offers the only wood composite deck board that can be installed in the ground, on the ground and underwater. Every MoistureShield® deck board is equipped with an impermeable barrier that fights against damage from moisture, rot, insects, and other harmful elements — all day, every day.
