Delivering The Building Blocks to Better Lives.

BlueLinX is a building products distributor for residential and commercial construction.

CALL TODAY!
1-888-502-2583

- ✓ Unparalleled Customer Service
- ✓ Extensive Selection of Products
- ✓ Coast-to-Coast Distribution

BlueLinX is the leading wholesale building products distributor for the top brands and customers in North America for homes and commercial construction. With warehouses across the country and a strong logistics network, we pick, pack, and ship the most sought-after materials to retailers and builders across America – completely, accurately, and on time. Since 1954, BlueLinX has been a proud blue-collar company of dedicated people who use their hands and skills to help transform building products into strong, secure businesses, houses, and homes. We emerged out of the plywood distribution division of Georgia-Pacific Corporation and have grown to become a preeminent partner for specialty materials suppliers, retailers, and professionals in the construction industry. BlueLinX is headquartered in Atlanta, Georgia.

EMPIREBLOCK

MULTIPLE LOOKS. ONE SOURCE.

Less time managing, more time imagining.

Why settle for one look when you can get multiple textures and finishes from a single manufacturer? With Nichiha Architectural Wall Panels, you can mix and match cladding styles to achieve the varied look you've been searching for. Whether you're looking for metal, stone, wood, concrete or brick, Nichiha has it all. Plus, all of our panel styles operate on the same clip installation system – saying goodbye to multiple contractors. You'll be able to move from conception to completion with ease, all while saving time and money.

INDUSTRIALBLOCK

Natural concrete look with industrial appeal. Ideal for interior or exterior designs

TUFFBLOCK

Packed with modern appeal. Rugged, textured finish available in four colors.

VINTAGEWOOD

Engineered for long-lasting color stability and naturally complements a wide range of finishes.

EMPIREBLOCK

Concrete finish with appearance of form tie holes. No cracking or color concerns

Celect Cellular Composite Siding

Lap Siding, Board & Batten, Shakes, and Accessories

2024 Celect Stock Colors

Additional Colors available from Royal

Influenced by Timeless Charm. Unfazed by Relentless Elements.

Celect Clapboard, Board & Batten and Shake Premium Siding options are all made from the same recyclable, state-of-the-art cellular material – Which means every one of their siding styles not only faithfully reproduces the texture, look and solid heft of real wood, but is unaffected by mold, mildew, weather and time.

Ply Gem® Blocks and Vents

Ply Gem makes it easy to add the perfect finishing touches to a home's exterior. Mounting blocks create a base for installing lights, doorbells, faucets, meters, and more. They keep out water and insects and create a finished surface over your siding. Vents ensure proper airflow from appliances, fireplaces and exhaust fans – they play a key role in proper ventilation and temperature control. Coordinate with these matching accessories designed to perform well and look beautiful together with many of our other products.

- Durable, engineered to endure harsh weather and high-wind climates – Will not chip, crack, or split
- Simple to Install
- A Perfect Color Match
- Limited Lifetime Warranty

RusticSeries™ by Woodtone

Beautiful wood appearance combined with the durability of fiber cement. RusticSeries™ is the original two-tone siding choice.

Stocked Colors:

- Available in 8.25" Allura Lap
- Full unit quantities only - 220 piece packs

Additional RusticSeries™ Colors Available:

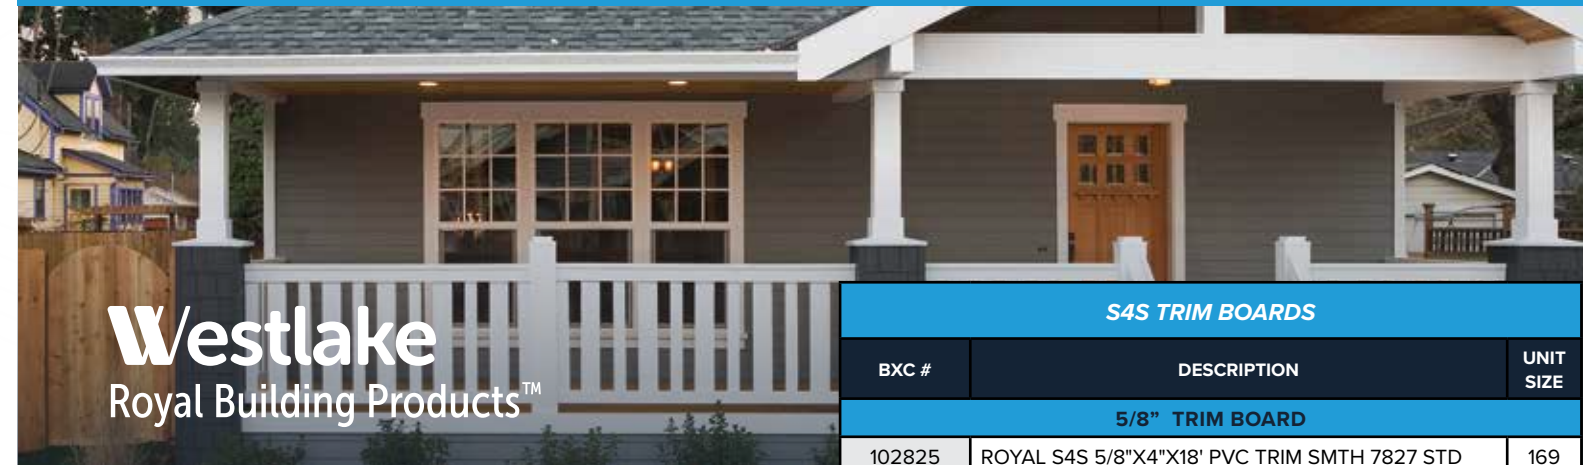

- 20 year coating warranty in addition to manufacturer's substrate warranty
- Matching caulking and solid trim colors available
- Available in lap, shakes, and panels
- Suitable for single family, multifamily and commercial developments

NOTE: RusticSeries™ is known for replicating the natural beauty of wood siding. Just like wood siding, each substrate and each profile of this product varies in terms of grain pattern and color variance.

PVC Trim

Royal® Westlake PVC Trim Boards

Define Your Curb Appeal.

Royal's wide array of sizes give you virtually unlimited flexibility to complement, embellish, even transform your exterior design.

Extruded Aluminum Plank System

Extruded Aluminum Plank System

FastPlank Systems

FastPlank® Systems is a versatile and elegant aluminum plank siding solution designed to reduce installation time, dramatically enhance curb appeal and extend the life of your building exterior.

FastPlank® provides the warmth and elegance of wood, but eliminates weathering and deterioration, ensuring your building maintains a pristine, immaculate exterior for years to come.

- Concealed fasteners leave your project with a sleek modern finish.
- FastPlank™ has a fully integrated rainscreen providing superior protection against high winds, hail, and fire.
- Clip technology speeds up installation and eliminates buckling.
- 50-Year product warranty and a 15-Year warranty on the finish.

Exterior Aluminum Trim & Siding

Exterior Aluminum Trim & Siding

LAP Trim System – Exterior Aluminum Trim & Siding Systems

EasyTrim Reveals® is a complete two-piece, exterior aluminum trim system designed for compatibility with the most popular siding products on the market.

Ideal for traditional and modern single-family homes, multi-unit, mixed-use, commercial, and institutional applications, EasyTrim® has quickly become the industry's choice, seamlessly adapting to a variety of panel or lap products, while accommodating different sizes and thicknesses of material.

- Modern Corner Aesthetics
- Hidden Fasteners
- Caulk-Free
- Built-In Moisture Management
- Clean Window & Corner Lines
- Fastest & Easiest Install Available
- Maintenance-Free

Weatherization & Insulation

Styrofoam, Sill Seal, Building Wrap & More

Let us make your next project a pleasure!
Call us today – (800) 839-2588

Cool in the Summer, Warm in the Winter, Dry All Year Long.

Elevate comfort, cut costs, and reduce environmental impact with our top-tier weatherization and insulation product offerings. Enjoy consistent indoor temperatures, lower energy bills, and a quieter, healthier living or working space. Explore now and experience the transformative benefits firsthand.

Maximize your brand's impact with Custom Building Wrap.

Dealers and builders can now promote their brand and attract local interest with state-of-the-art high resolution print technology.

No Set-Up Fee:

Choose from a wide spectrum of colors and gradients at no extra cost.

Alternating Messages & Images:

Impactful logos, custom messaging, and contact information all on one roll of any grade building wrap.

Flexible Order Size:

Mix two custom logos on same pallet.

Weatherization & Insulation

Residential and Light Commercial Building Envelope Systems®

Henry Building Envelope Systems®

Every building requires thoughtful management of water, vapor, air, and energy to create a comfortable, efficient, and healthy indoor environment. No matter your building materials, codes, construction methods, or climate, Henry® offers compatible weatherization systems for every level of protection and budget.

- Energy Efficient – Eliminates Uncontrolled Air Leakage
- Protects Against Moisture and Mold
- Simplifies Selection And Installation With Compatible Systems

Wall Systems / Water-Resistive Barriers

A water-resistive barrier (WRB) controls moisture and air flow and can improve energy efficiency. It allows water to drain away from the wall system and water vapor to exit the structure. Henry offers a comprehensive portfolio of options – from self-adhesive and mechanically fastened barriers to Asphalt Saturated Kraft (ASK) building paper.

Blueskin® VP100 Self-Adhered Air & Water Barrier

- Eliminates uncontrolled air leakage to reduce energy costs
- Easy installation with peel-and-stick system
- Self-seals around nails and fasteners
- Achieves more than 95% drainage efficiency

Specifications: 4", 6", 9", 12", and 48" x 100 lineal feet

WeatherSmart® Commercial

- Outstanding surfactant resistance and 12-month UV stability
- Best-in-class tear resistance
- Part of approved NFPA 285 assemblies
- Excellent balance between water resistance and permeability

Specifications: 5' x 200 lineal feet; 10' x 125 lineal feet

WeatherSmart®

- Excellent balance between water resistance and permeability
- Good tear resistance and UV stability
- Part of approved NFPA 285 assemblies

Specifications: 5', 9', 10' x 125 lineal feet

WeatherSmart® Drainable

- Crush-resistant drainable pattern
- Achieves more than 95% drainage efficiency
- Code compliant for use behind masonry
- Part of approved NFPA 285 assemblies

Specifications: 9' x 125 lineal feet

WeatherSmart® D

- Textured surface moves water down the wall
- Achieves more than 95% drainage efficiency
- Code compliant for use behind masonry
- Part of approved NFPA 285 assemblies

Specifications: 5', 9' and 10' x 125 lineal feet

Hydro Tex™

- Labor saving two-ply protection in one pass
- Crush-resistant drainable pattern
- Achieves more than 95% drainage efficiency
- Part of approved NFPA 285 assemblies

Specifications: 40" x 48.6 lineal feet

Two-Ply Super Jumbo Tex® 60 Min

- 15x more water resistant than the requirement for Grade "D" paper
- Tear resistant, two-ply construction
- Part of approved NFPA 285 assemblies

Specifications: 40" x 48.6 lineal feet

Two-Ply Jumbo Tex®

- 10x more water resistant than the requirement for Grade "D" paper
- Protects against water intrusion and condensation
- Ideal for stucco, fiber cement, brick, vinyl & wood siding applications

Specifications: 40" x 48.6 and 75 lineal feet

Super Jumbo Tex® 60 Min

- 6x more water resistant than the requirement for Grade "D" paper
- Ideal for stucco and stone applications
- Part of approved NFPA 285 assemblies

Specifications: 40" x 72 lineal feet

Jumbo Tex®

- 2x more water resistant than the requirement for Grade D paper
- Cost effective protection against moisture
- Ideal for stucco, fiber cement, brick, vinyl & wood siding applications

Specifications: 40" x 97.2 and 150 lineal feet

PlyDry®*

- Meets code requirements at an affordable price
- Semi-translucent color aids in locating studs
- UV Resistant

Specifications: 9' and 10' rolls by 100 and 150 lineal feet

WeatherSmart® Rainscreen

- Enhances ventilation and improves drying between barrier and cladding
- 3D matrix channels water down and out of wall system
- Serves as a protective layer between stucco and weather-resistive barrier
- Meets code requirements (6mm)
- Compatible with all standard cladding types

Specifications: 39" x 61.6 lineal feet

Weatherization & Insulation

Building Envelope Systems, Wall Systems,

Flashing

Windows, doors, and other exterior penetrations are the most vulnerable to moisture intrusion. Self-adhered, fluid applied, mechanically applied, and hybrid flashing options are designed to help prevent moisture intrusion and mitigate the risk of mold, mildew, and rot.

Blueskin® Butyl Flash

- Self-seals around nails and fasteners for lasting watertightness
- Can be installed in temperatures as low as 25° F
- Impermeable to air, moisture vapor, and water

Specifications: 4", 6", 9", 12" x 75 lineal feet

FortiFlex® Butyl

- Creped film offers exceptional stretch with minimal bunching
- Can be installed in temperatures as low as 10° F
- Resists UV exposure for up to one year
- Self-seals around nails and fasteners

Specifications: 6" and 9" x 50 lineal feet

FortiFlash® Butyl

- Self-seals around nails and fasteners
- Can withstand extreme temperatures up to 250° F
- Split-back release for easy handling
- Compatible with standard sealants, EPDM & flexible vinyl

Specifications: 4", 6", 9", 12" and 18" x 75 lineal feet

Moistop E-Z Seal®

- Includes 3" adhesive backing strip for secure installation
- Easy integration into the weather-resistive barrier
- Bonds reliably to plywood, OSB, aluminum, wood & vinyl windows

Specifications: 4", 6", 9" and 12" x 75 lineal feet

FortiFlash® 25 and 40 mil

- Rubberized asphalt core protects against delamination & tears
- Self-seals around nails and fasteners
- Compatible with Moistop Sealant

Specifications: 40" x 97.2 and 150 lineal feet

Air-Bloc LF® Liquid Flashing

- Bonds and cures in wet weather
- Can be installed in temperatures as low as 20° F
- Self-seals around nails and fasteners for lasting watertightness
- Low VOC

Specifications: 20 oz sausage

Moistop PF®

- Resists cracking and curling
- Mold resistance per ASTM G21
- Bonds reliably to plywood, OSB, aluminum, wood & vinyl windows

Specifications: 6", 9", 12" and 18" x 300 lineal feet

Moistop Corner Shield®

- Flexible Corner Flashing Protection
- Easily conforms to the window's rough opening
- Flexible polyolefin construction can correct for framing irregularities
- Available in 50 count cartons

Moistop Corner Shield®

- Rigid Corner Flashing Protection
- Molded corners easily fit into window rough opening
- Made from durable high density polyethylene plastic

*Not eligible for Henry 1-2-3 Moisture Control System warranty.

**Can only be used with Blueskin VP100, and FortiFlash Butyl in a reverse lap application.

Sealants & Primer

Henry sealants create a tough and durable watertight bond for window, door, and other flashing applications. These sealants can be applied easily, skin over the surface quickly, and provide superior weather resistance.

Moistop® Sealant

- Optimal adhesion on most surfaces
- Conforms to any shape and fills joints up to ½" wide
- Paintable
- Low VOC formulation

Specifications: 10 oz and 20 oz sausage

Henry® 212 All Purpose Crystal Clear Sealant**

- Provides clear, invisible patch
- Excellent adhesion, even on wet surfaces
- Remains flexible over time so it doesn't crack
- Must be used with Blueskin® VP100

Specifications: 10.1 oz tube

Blueskin® Spray Prep

- Easily applied and quick-setting
- Aggressive tack provides adhesion of membrane
- Suitable for application at normal and low temperatures
- For use with Blueskin® branded products only

Specifications: 15 oz spray can

Aquatac™ Primer

- Quick drying
- Easily applied by spray, brush or roller
- Non-flammable during application and low VOC
- Can be installed in temperatures as low as 25° F

Specifications: 1 gallon; 5 gallon

Engineered Wood

LVL, I-Joist, Rim Board, TrimJoist, & Glulam

Great Framework Begins with Quality Engineered Wood Products.

With onCENTER®, you can breeze through your next project with our quality engineered wood products delivered direct to your job site – for any job lot quantity you need. You'll find everything you need to complete your next project on schedule and on budget.

When It's Built Right, It's onCENTER®.

Add a Captivating, Elegant Touch to Architectural Designs.

Cedar seamlessly combines aesthetic charm with functional durability. With its alluring reddish-brown tones that mature into a captivating silvery hue over time, cedar offers innate resistance to decay and pests due to its natural oils and compounds.

Cedar's exceptional stability and workability make it a go-to choice for siding, decking, and roofing, ensuring structures maintain their appeal while weathering the elements.

Ordering Details

All RGH timbers and dimension available for surfacing upon request (Subject to lead time).

Custom timber sizing available in RGH or S4S (Subject to lead time).

We offer Custom Milling!

*Please allow up to two weeks for delivery.

Showcasing the Pure Beauty of Natural Wood.

Gorman lumber is carefully graded above the NLGA or WWPA industry standards, has a furniture finish that is smooth and splinter-resistant (The Gorman Edge) and is heat treated and kiln dried to ensure a stable board, not prone to bowing or cracking.

The Gorman Edge:

Different Grades:

All 1" boards are carefully graded with smaller and fewer natural traits allowed in the higher grades of wood.

Different Package Sizes:

All Gorman products are wrapped in protective tarp to ensure clean stock and better inventory control.

- ✓ Smooth surfaces & soft edges
- ✓ Fewer slivers
- ✓ Less chipping
- ✓ Waxed edges to reduce splits
- ✓ Slow & gentle drying to create a flat & stable board

Benefits Wood Can't Match.

You can count on PROLinePlus® PVC trim and moulding to boost your home's interior design appeal. Our boards have the look and feel of painted wood. They are available with a smooth finish on both sides, or textured on one side and smooth on the other.

- Superior quality and excellent dimensional accuracy
- Low-maintenance, long-lasting material
- Natural White and ready to install
- Highly resistant to UV yellowing
- Can be painted to complement exterior colors
- Cuts and mills with traditional woodworking tools
- Excellent flame spread rating – categorized as self-extinguishing
- 30-year limited warranty*

*For information about our 30-year warranty, please visit bluelinxco.com/proline-plus-pvc

Live outside the ordinary.

MoistureShield® offers the only wood composite deck board that can be installed in the ground, on the ground, and underwater. Every MoistureShield® deck board is equipped with an impermeable barrier that fights against damage from moisture, rot, insects, and other harmful elements. Our exclusive CoolDeck® Technology also reduces heat up to 35%* so you can stay much cooler and enjoy your deck more, even under the hot summer sun.

COMPOSITE DECKING

COOLDECK
TECHNOLOGY

Inspired. Resilient. Revolutionary.

Stratos composite enhanced PVC decking features our groundbreaking Next Core™ making our deck boards stronger and longer-spanning than any PVC decking on the market. Engineered with a 50% greater span to provide rigidity and a more solid feel, Stratos features our TruTexture™ Surface for a true wood grain finish. With CoolDeck® Technology reducing heat up to 35%* and a proprietary acrylic cap providing a strong defense against stains, scratches and impact.

*Compared to standard capped PVC composites in similar color.

Compass™ Aluminum Railing

Railing and Accessories by MoistureShield®

COMPASS
RAILING
by MoistureShield

Live outside the ordinary.

MoistureShield's Compass Series aluminum deck railing system adds a contemporary edge to any deck design with rustproof construction and modern lines for any outdoor setting. Featuring ProLock™ strips and a powder coating rated three times the industry standard. Compass Series aluminum railing offers secure connections and durability for sophisticated strength.

Features:

- Strong and durable - will not rust
- Pre-assembled panels are true to length
- 2 top rail options - Cambridge for a contoured profile and classic for an architectural style flat profile
- Top and bottom rail end caps conceal cuts for a clean & polished look ProLock™ strips create a secure screwless connection to 3/4" baluster
- Powdercoat rated at more than 3X industry standard
- Concealed brackets offer a clean & polished look
- Code compliant for safety and security
- Limited Lifetime Warranty

DELIVERING WHAT MATTERS™

Discovery™ Composite Railing

Railing and Accessories by MoistureShield®

SOLID CORE™
RAILING
by MoistureShield®

Create your Backyard Oasis.

Designed to be water-resistant like our decking, Solid Core composite railing will not rot, splinter, warp or stain and is resistant to mold – keeping your railing beautiful for years to come.

The Discovery Series composite railing offers a traditional breadloaf profile with a smooth glossy finish. Add the optional deck board adaptor to create a flat cocktail rail for added style and convenience. Featuring concealed fasteners, two infill style options, and offered as a complete kit including top and bottom rails, infill, and brackets, Discovery Series gives you everything you need between the posts for a clean, finished look.

will not rot,
splinter, warp,
or stain

Lifetime
Warranty

Features:

- Solid Core™ composite with PVC cap stock provides durability with the look of real wood
- Will not rot, splinter, warp or stain
- No squeaks or rattles
- Concealed fasteners offer a clean and polished look
- Code approved for safety and security
- Transferable Limited Lifetime Warranty
- Made in the USA

Traverse™ Composite Railing

Railing and Accessories by MoistureShield®

**SOLID CORE™
RAILING**
by MoistureShield

The Natural Look You Want, Without the Upkeep.

Designed to be water-resistant like MoistureShield's decking, Solid Core composite railing will not rot, splinter, warp or stain and is resistant to mold – keeping your railing beautiful for years to come.

Traverse Series composite railing features a traditional T-Rail profile with a smooth glossy finish. Two infill style options offer design flexibility and concealed fasteners provide a clean, finished look. Offered as a complete kit including top and bottom rails, infill, and brackets, our Traverse Series gives you everything you need between the posts to take your railing to the next level.

Features:

- Solid Core™ composite with PVC cap stock provides durability with the feel of real wood
- Will not rot, splinter, warp or stain
- Panels are true to length
- No squeaks or rattles
- Concealed fasteners offer a clean and polished look
- Code approved for safety and security
- Transferable Limited Lifetime Warranty
- Made in the USA

Royal Zuri® PVC Decking

Decking, Trim, Fascia, and Accessories

The aura of exotic wood. The easy upkeep of effortless weekends.

Zuri® Premium Decking gives homeowners the look, feel and charm of exotic hardwood with none of its maintenance demands. Which adds up to zero tradeoffs and truly unique exterior design possibilities.

The distinctive inlay design, style and color options add a dramatic visual draw to long runs of diagonal decking. Make an even bigger personal statement by working with one of our designers to create your own detail.

- Minimal grain repetition captures the look of exotic hardwood
- Distinctive inlay design, style and color options
- Resistant to scratches, stains, color fading, slips and moisture
- No painting, staining or resealing
- Exceptional resistance to UV light and color fading
- 25-year Colorfastness Warranty: Color shifting will not exceed five units on the Hunter color scale
