- ✓ Unparalleled Customer Service
- ✓ Extensive Selection of Products
- ✓ Coast-to-Coast Distribution

BlueLinx is the leading wholesale building products distributor for the top brands and customers in North America for homes and commercial construction. With warehouses across the country and a strong logistics network, we pick, pack and ship the most sought-after materials to retailers and builders across America – completely, accurately and on time. Since 1954, BlueLinx has been a proud blue-collar company of dedicated people who use their hands and skills to help transform building products into strong, secure businesses, houses and homes. We emerged out of the plywood distribution division of Georgia-Pacific Corporation and have grown to become a preeminent partner for specialty materials suppliers, retailers and professionals in the construction industry. BlueLinx is headquartered in Atlanta, Georgia.

Introducing **Greenbar2X Fiberglass Rebar**

Greenbar2X is next-generation fiberglass rebar engineered to deliver unparalleled strength, durability, and corrosion resistance, making it the ideal solution for residential and commercial construction projects. Designed to outperform traditional steel, Greenbar2X is perfect for applications ranging from small-scale jobs like patios, driveways and foundations to large infrastructure projects such as pool foundations and retaining walls. Its lightweight design ensures quicker, more efficient installation, reducing both time and labor costs on-site. With superior resistance to corrosion, Greenbar2X minimizes maintenance expenses and significantly extends the lifespan of concrete structure. Greenbar2X is the smart, sustainable choice for projects that demand long-lasting performance and concrete reinforcement in even the harshest environments. It's time to start building stronger, faster, better!

Better than Steel Rebar

- ✓ STRONGER
- ✓ LIGHTER & EASIER TO HANDLE
- ✓ EASIER TO CUT
- ✓ WILL NOT RUST OR CORRODE

SIZES AVAILABLE

Cedar

Green Dimensional & Trim, Timbers & Pattern Stock

Add a Captivating, Elegant Touch to Architectural Designs.

Cedar seamlessly combines aesthetic charm with functional durability. With its alluring reddish-brown tones that mature into a captivating silvery hue over time, cedar offers innate resistance to decay and pests due to its natural oils and compounds.

Cedar's exceptional stability and workability make it a go-to choice for siding, decking and roofing, ensuring structures maintain their appeal while weathering the elements.

Ordering Details

All RGH timbers and dimension available for surfacing upon request (Subject to lead time).

Custom timber sizing available in RGH or S4S (Subject to lead time).

We offer Custom Milling!

*Please allow up to two weeks for delivery.

Showcasing the Pure Beauty of Natural Wood.

Gorman lumber is carefully graded above the NLGA or WWPA industry standards, has a furniture finish that is smooth and splinter-resistant (The Gorman Edge) and is heat treated and kiln dried to ensure a stable board, not prone to bowing or cracking.

The Gorman Edge:

Different Grades:

All 1" boards are carefully graded with smaller and fewer natural traits allowed in the higher grades of wood.

Different Package Sizes:

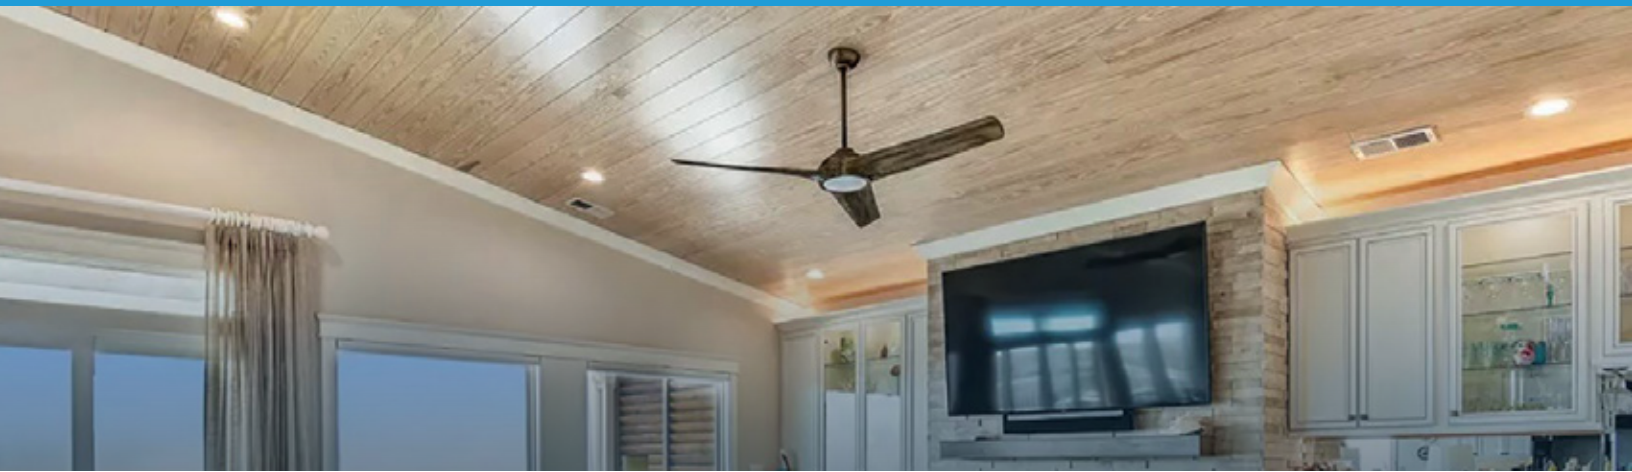

All Gorman products are wrapped in protective tarp to ensure clean stock and better inventory control.

- ✓ Smooth surfaces & soft edges
- ✓ Fewer slivers
- ✓ Less chipping
- ✓ Waxed edges to reduce splits
- ✓ Slow & gentle drying to create a flat & stable board

MoistureShield® Decking

Composite Decking

Live outside the ordinary.

MoistureShield® offers the only wood composite deck board that can be installed in the ground, on the ground and underwater. Every MoistureShield® deck board is equipped with an impermeable barrier that fights against damage from moisture, rot, insects and other harmful elements. Our exclusive CoolDeck® Technology also reduces heat up to 35%* so you can stay much cooler and enjoy your deck more, even under the hot summer sun.

Why MoistureShield®?

Solid Core Innovation – Moisture-resistant to the core for installs on the ground, in the ground, or even underwater.

CoolDeck® Technology – Reduces heat absorption to keep boards cooler underfoot.

Low Maintenance – No rotting, warping, or splintering—ideal for long-term customer satisfaction.

On-Trend Colors & Profiles – Options that meet today's design preferences and price points.

MoistureShield®

InstaDeck®

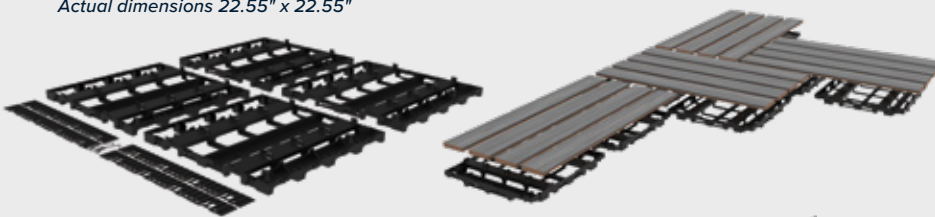

Introducing **MoistureShield InstaDeck®** Outdoor Flooring System

MoistureShield's InstaDeck® is a user-friendly outdoor flooring system for creating ground-level, freestanding decks. Compatible with all MoistureShield decking lines, it allows for screw-free installation with an integrated fastening system. Ideal for homeowners seeking a quick and cost-effective way to upgrade their outdoor space.

- Create any size deck using locking tile foundation
- Picture frame ability using line and corner tiles
- Minimal tools required for easy installation
- Compatible with 60mm (2 $\frac{3}{8}$ ") pavers to combine decking and hardscape
- Assemble on any flat surface: grass, concrete, existing patio surfaces and gravel
- Tiles can be offset around obstacles and existing hardscape or concrete
- Made in the USA with Limited Lifetime Warranty

2' x 2' InstaDeck (set of 4)

Actual dimensions 22.55" x 22.55"

Corner InstaDeck (set of 4)

Actual dimensions 5.83" x 5.83"

Step 1. Ensure a flat, level surface and set tiles

Step 2. Press clips together to interlock tiles and then secure tiles to surface

Step 3. Step down to snap boards in

SOLID CORE™
RAILING
by MoistureShield®

Create your Backyard Oasis.

Designed to be water-resistant like our decking, Solid Core composite railing will not rot, splinter, warp or stain and is resistant to mold – keeping your railing beautiful for years to come.

The Discovery Series composite railing offers a traditional breadloaf profile with a smooth glossy finish. Add the optional deck board adapter to create a flat cocktail rail for added style and convenience. Featuring concealed fasteners, two infill style options and offered as a complete kit including top and bottom rails, infill and brackets, Discovery Series gives you everything you need between the posts for a clean, finished look.

**will not rot,
splinter, warp,
or stain**

**Lifetime
Warranty**

Features:

- Solid Core™ composite with PVC cap stock provides durability with the look of real wood
- Will not rot, splinter, warp or stain
- No squeaks or rattles
- Concealed fasteners offer a clean and polished look
- Code approved for safety and security
- Transferable Limited Lifetime Warranty
- Made in the USA

Building Product Accessories

Shims, Furring Strips, Poly & Subfloor Adhesive

All-Purpose Protection

Tough, pliable and reliable, poly sheeting provides exceptional protection against water vapor and foreign matter. Its lightweight yet highly durable design resists cracking, peeling, rotting and mildew, ensuring long-lasting performance. With permanent flexibility even in sub-zero temperatures, poly sheeting is ideal for a wide range of applications in construction, agriculture and industry. When paired with shims and subfloor adhesive, it enhances structural stability, ensuring a level, secure and moisture-resistant foundation for flooring and other installations.

K-LATH®

Precision-Engineered Corner Solutions for Every Application

Kwik Corner offers high-quality, versatile solutions for finishing corners, doors, windows and arches with precision and durability. The Bullnose Kwik Round delivers smooth, rounded corners with a 7/16" or 7/8" radius and 2½" legs, available in 10' lengths with optional double wire and Class 3 galvanized coating. The Short Flange profile fits snugly around doors and windows with a 2½" leg and 1½" stop-side flange and comes in 10' lengths for right-angle or bullnose corners. Designed for curved forms, Kwik Arch features one welded and one flexible leg for easy shaping, available in 8' or 10' lengths with an optional PVC nose for added corrosion protection.

Reliable Bonds. Long-Lasting Performance.

Titebond® offers high-performance solutions for demanding construction applications. For subfloor projects, Titebond® Solvent-Based Subfloor Construction Adhesive delivers a strong, flexible bond with excellent initial tack—minimizing nails and preventing squeaks—backed by a 25 Year Silver Subfloor Warranty. The 100% Silicone Sealant is a non-staining, mildew-resistant formula ideal for interior and exterior use, offering permanent flexibility, weather resistance and long-term color stability without cracking or shrinking.
