☑ **Unparalleled Customer Service**
☑ **Extensive Selection of Products**
☑ **Coast-to-Coast Distribution**

BlueLinx is the leading wholesale building products distributor for the top brands and customers in North America for homes and commercial construction. With warehouses across the country and a strong logistics network, we pick, pack, and ship the most sought-after materials to retailers and builders across America – completely, accurately, and on time. Since 1954, BlueLinx has been a proud blue-collar company of dedicated people who use their hands and skills to help transform building products into strong, secure businesses, houses, and homes. We emerged out of the plywood distribution division of Georgia-Pacific Corporation and have grown to become a preeminent partner for specialty materials suppliers, retailers, and professionals in the construction industry. BlueLinx is headquartered in Atlanta, Georgia.

GORMAN
The Finest Boards

Showcasing the Pure Beauty of Natural Wood.

Gorman lumber is carefully graded above the NLGA or WWPA industry standards, has a furniture finish that is smooth and splinter-resistant (The Gorman Edge) and is heat treated and kiln dried to ensure a stable board, not prone to bowing or cracking.

The Gorman Edge:

Different Grades:
All 1" boards are carefully graded with smaller and fewer natural traits allowed in the higher grades of wood.

Different Package Sizes:
All Gorman products are wrapped in protective tarp to ensure clean stock and better inventory control.

- ✓ **Smooth surfaces & soft edges**
- ✓ **Fewer slivers**
- ✓ **Less chipping**
- ✓ **Waxed edges to reduce splits**
- ✓ **Slow & gentle drying to create a flat & stable board**

BlueLinx St. Louis stocks the Gorman Elite, Gorman Craftsman, and Pattern 116/WP4 Reversible in both the Elite and Craftsman series in various sizes and lengths.

Cedar

Green Dimensional & Trim, Timbers & Pattern Stock

Add a Captivating, Elegant Touch to Architectural Designs.

Cedar seamlessly combines aesthetic charm with functional durability. With its alluring reddish-brown tones that mature into a captivating silvery hue over time, cedar offers innate resistance to decay and pests due to its natural oils and compounds.

Cedar's exceptional stability and workability make it a go-to choice for siding, decking and roofing, ensuring structures maintain their appeal while weathering the elements.

BLX STL stocks 1x in SIS2E, and various sizes and lengths of rough cedar

VERSATEX®
BUILDING PRODUCTS

HIGH QUALITY PVC PRODUCTS NOW AVAILABLE

TRIMBOARD

VERSAWRAP™

SHEET

VERSATEX Building Products are manufactured from cellular PVC, which is impervious to insects and moisture. Product formula ensures VERSATEX maintains its bright white color and is dense enough to use the same cutting tools & fasteners one would with a traditional product. Warping, fading, cupping, or splitting is now a thing of the past — just a building product with high aesthetic value backed by an **industry-best, lifetime, fully transferable, non-prorated warranty.**

XCEED Siding by **VERSATEX**

XCEEDING *Your* XPECTATIONS

XCEED by VERSATEX is durable PVC siding that adds beauty and elegance to any home or building's exterior. Its unique wood-like appearance in 10 contemporary colors provides a high-end look coupled with the durability and maintenance-free features you come to know with VERSATEX PVC. Unlike traditional siding options, XCEED has been carefully developed and tested and is backed by a limited lifetime warranty, providing you peace of mind that your building is protected from an ever-changing environment.

XCEED is available in two distinct lap siding profiles, 4-1/2" and 7-1/2" reveal, each in 16 ft board lengths, enabling fewer butt joints and a quicker installation. Its unique VZ drop lock helps to ensure each row remains level as each row stacks and interlocks move up the wall.

4 1/2" in Simple Sage **(Special Order only)**

The 4 1/2" lap siding is a narrower profile that delivers a clean, classic look that suits various architectural styles, making it a timeless choice for any exterior project.

7 1/2" in Heritage Blue

The 7 1/2" lap siding offers a wider reveal, creating a bold, modern aesthetic that combines style and size, making it an ideal selection for your next project.
	XCEED	CEDAR	FIBER CEMENT	VINYL
HIGHEST R-VALUE	X			
IMPERVIOUS TO MOISTURE	X			X
CLASS A FIRE RATING	X		X	
NO PAINT/ STAIN REQUIRED	X			X
IMPACT/WIND RESISTANT	X	X	X	

Some Features Include:

• Premium lengths = fewer butt joints and a faster, more efficient install.

• Water resistant and not susceptible to swell, bow, warp, or rot.

• Thicker and more durable than vinyl siding, with a high-end wood-like appearance.

• Color that lasts – maintenance free with no need for routine painting like natural or engineered wood and fiber cement.

• Once the first row is level, VZ Drop-Lock allows for faster installation, interlocking each row, ensuring a level appearance as you install up the wall.

XCEED 7 1/2" Siding is Available in 10 Contemporary Shades

MoistureShield®
InstaDeck®

Introducing **MoistureShield InstaDeck® Outdoor Flooring System**

MoistureShield's InstaDeck® is a user-friendly outdoor flooring system for creating ground-level, freestanding decks. Compatible with all MoistureShield decking lines, it allows for screw-free installation with an integrated fastening system. Ideal for homeowners seeking a quick and cost-effective way to upgrade their outdoor space.

2' x 2' InstaDeck (set of 4)
Actual dimensions 22.55" x 22.55"

- Create any size deck using locking tile foundation
- Minimal tools required for easy installation
- Compatible with 60mm (2⅜") pavers to combine decking and hardscape
- Assemble on any flat surface: grass, concrete, existing patio surfaces and gravel
- Tiles can be offset around obstacles and existing hardscape or concrete
- Made in the USA with Limited Lifetime Warranty

InstaDeck can be installed in straight runs or in an interlocking pattern

greenbar2X™
Build Stronger. Faster. Better.

Introducing **Greenbar2X Fiberglass Rebar**

Greenbar2X is next-generation fiberglass rebar engineered to deliver unparalleled strength, durability, and corrosion resistance, making it the ideal solution for residential and commercial construction projects. Designed to outperform traditional steel, Greenbar2X is perfect for applications ranging from small-scale jobs like patios, driveways, and foundations to large infrastructure projects such as pool foundations and retaining walls. Its lightweight design ensures quicker, more efficient installation, reducing both time and labor costs on-site. With superior resistance to corrosion, Greenbar2X minimizes maintenance expenses and significantly extends the lifespan of concrete structure. Greenbar2X is the smart, sustainable choice for projects that demand long-lasting performance and concrete reinforcement in even the harshest environments. It's time to start building stronger, faster, better!

Better than Steel Rebar

✔ STRONGER

✔ EASIER TO CUT

✔ LIGHTER & EASIER TO HANDLE

✔ WILL NOT RUST OR CORRODE
