Finish With Trim That's Better From the Start

Superior strength. Easier handling and finishing. Faster project turnaround. Make Armorite® Exterior Trim part of your next project and get durable, lasting results that both builders and owners love.

FINISH YOUR PROJECT WITH PROVEN ARMORITE® PERFORMANCE

As a builder, satisfying owners now and years from now depends on your choice of durable, reliable materials that are easy to work with and easy to maintain. Armorite® Exterior Trim is engineered for straightforward installation and decades of trusted service.

- **Complete projects more efficiently.** Composite engineering means best-in-class machineability, fastening, and finishing while factory-applied exterior-grade primer limits prep work.
- **Superior strength and handling.** Made from Western softwood, Armorite® Exterior Trim is easy to manage, even at 16' lengths.
- **Ideal for all climates.** MR50 rating ensures moisture resistance and durability.
- **Beautifully adaptable.** Armorite® Exterior Trim can be used for custom architectural accents and offers both smooth and woodgrain surfaces in a single product.
- **Safely dependable.** Resists moisture, rot, decay, and termites with no-added formaldehyde.
- **Exceptional warranty coverage.** Our 50-year warranty offers peace of mind you and your customers can count on.

INSTALLER-FRIENDLY TO SAVE TIME ON THE JOBSITE

- Factory-primed on four sides with exterior-grade primer, Armorite® Exterior Trim readily accepts your finishing coats of paint.
- Single-layer component material ensures consistent nailing with no pop-throughs or material delamination.
- Best-in-class workability delivers clean cuts, minimal sanding, and smooth paint finishes.

Introducing **Greenbar2X Fiberglass Rebar**

Greenbar2X is next-generation fiberglass rebar engineered to deliver unparalleled strength, durability, and corrosion resistance, making it the ideal solution for residential and commercial construction projects. Designed to outperform traditional steel, Greenbar2X is perfect for applications ranging from small-scale jobs like patios, driveways and foundations to large infrastructure projects such as pool foundations and retaining walls. Its lightweight design ensures quicker, more efficient installation, reducing both time and labor costs on-site. With superior resistance to corrosion, Greenbar2X minimizes maintenance expenses and significantly extends the lifespan of concrete structure. Greenbar2X is the smart, sustainable choice for projects that demand long-lasting performance and concrete reinforcement in even the harshest environments. It's time to start building stronger, faster, better!

Better than Steel Rebar

- ✓ STRONGER
- ✓ EASIER TO CUT
- ✓ LIGHTER & EASIER TO HANDLE
- ✓ WILL NOT RUST OR CORRODE

SIZES AVAILABLE

#3 (3/8" Dia.)	10ft, 20ft
#4 (1/2" Dia.)	4ft, 10ft, 20ft

Roofing

Felt, Ice & Rain Guard & Underlayment

Strengthening Roof Performance, One Layer at a Time.

Enhance the durability and performance of your roof with our range of essential roofing accessories designed to work seamlessly under shingles – Preserving the value of your investment.

Weatherization & Insulation

Styrofoam, Sill Seal, Building Wrap & More

Cool in the Summer, Warm in the Winter, Dry All Year Long.

Elevate comfort, cut costs and reduce environmental impact with our top-tier weatherization and insulation product offerings. Enjoy consistent indoor temperatures, lower energy bills and a quieter, healthier living or working space. Explore now and experience the transformative benefits firsthand.

Maximize your brand's impact with Custom Building Wrap.

Dealers and builders can now promote their brand and attract local interest with state-of-the-art high resolution print technology.

No Set-Up Fee

Choose from a wide spectrum of colors and gradients at no extra cost.

Alternating Messages & Images

Impactful logos, custom messaging and contact information all on one roll of any grade building wrap.

Flexible Order Size

Mix two custom logos on same pallet.

MoistureShield® Decking

Composite Decking

Live outside the ordinary.

MoistureShield® offers the only wood composite deck board that can be installed in the ground, on the ground and underwater. Every MoistureShield® deck board is equipped with an impermeable barrier that fights against damage from moisture, rot, insects and other harmful elements. Our exclusive CoolDeck® Technology also reduces heat up to 35%* so you can stay much cooler and enjoy your deck more, even under the hot summer sun.

MoistureShield®

InstaDeck®

Introducing **MoistureShield InstaDeck®** Outdoor Flooring System

MoistureShield's InstaDeck® is a user-friendly outdoor flooring system for creating ground-level, freestanding decks. Compatible with all MoistureShield decking lines, it allows for screw-free installation with an integrated fastening system. Ideal for homeowners seeking a quick and cost-effective way to upgrade their outdoor space.

- Create any size deck using locking tile foundation
- Picture frame ability using line and corner tiles
- Minimal tools required for easy installation
- Compatible with 60mm (2 $\frac{3}{8}$ ") pavers to combine decking and hardscape
- Assemble on any flat surface: grass, concrete, existing patio surfaces and gravel
- Tiles can be offset around obstacles and existing hardscape or concrete
- Made in the USA with Limited Lifetime Warranty

2' x 2' InstaDeck (set of 4)

Actual dimensions 22.55" x 22.55"

Corner InstaDeck (set of 4)

Actual dimensions 5.83" x 5.83"

Step 1. Ensure a flat, level surface and set tiles

Step 2. Press clips together to interlock tiles and then secure tiles to surface

Step 3. Step down to snap boards in
