- ✓ Unparalleled Customer Service
- ✓ Extensive Selection of Products
- ✓ Coast-to-Coast Distribution

BlueLinx is the leading wholesale building products distributor for the top brands and customers in North America for homes and commercial construction. With warehouses across the country and a strong logistics network, we pick, pack, and ship the most sought-after materials to retailers and builders across America – completely, accurately, and on time. Since 1954, BlueLinx has been a proud blue-collar company of dedicated people who use their hands and skills to help transform building products into strong, secure businesses, houses, and homes. We emerged out of the plywood distribution division of Georgia-Pacific Corporation and have grown to become a preeminent partner for specialty materials suppliers, retailers, and professionals in the construction industry. BlueLinx is headquartered in Atlanta, Georgia.

Shutters

Raised Panel, Louvered and Board & Batten

Ply Gem® Shutters

Give your home a classic wood-grain charm without cracking, splitting and peeling. Quick and easy to install & virtually maintenance-free, shutters instantly add a finished feel to your home's exterior.

Ply Gem's shutters come in standard heights and widths to fit virtually any window. An array of popular colors let you coordinate with your siding to create the look you want.

All products are shipped direct to you from the manufacturer!

Also Available to Order:

- Arch-Top Shutter
- Custom Size Shutters
- Shutter Accessories
- Mounting Blocks
- Utility Vents
- Gable Vents
- Window & Door Surrounds

Blocks & Vents

SturdiMount®

SturdiMount
by Mid America

SturdiMount Blocks and Vents

SturdiMount® Mount Blocks from Mid-America are engineered to create a strong, smooth mounting surface that eliminates the challenges of installing fixtures on uneven exterior finishes such as lap siding, brick, stone, or stucco. Often an overlooked detail, SturdiMount makes it easy to securely install light fixtures, vents, electrical outlets, and more—while delivering a clean, finished appearance that complements a wide range of exterior materials. Featuring an ABS flange designed to help keep water out, each block is manufactured from durable cellular PVC to ensure lifetime, maintenance-free performance.

- Pre-flashed and pre-assembled for protection against water damage
- The mounting surface is manufactured of cellular PVC
- Nail fin for incorporation into water-resistant barriers
- Incorporated head flashing saves time
- Does not split, crack, warp, or twist, will not chalk or fade
- Does not experience moisture cycling so paint holds up better than on wood

Finish With Trim That's Better From the Start

Superior strength. Easier handling and finishing. Faster project turnaround. Make Armorite® Exterior Trim part of your next project and get durable, lasting results that both builders and owners love.

FINISH YOUR PROJECT WITH PROVEN ARMORITE® PERFORMANCE

As a builder, satisfying owners now and years from now depends on your choice of durable, reliable materials that are easy to work with and easy to maintain. Armorite® Exterior Trim is engineered for straightforward installation and decades of trusted service.

- **Complete projects more efficiently.** Composite engineering means best-in-class machineability, fastening, and finishing while factory-applied exterior-grade primer limits prep work.
- **Superior strength and handling.** Made from Western softwood, Armorite® Exterior Trim is easy to manage, even at 16' lengths.
- **Ideal for all climates.** MR50 rating ensures moisture resistance and durability.
- **Beautifully adaptable.** Armorite® Exterior Trim can be used for custom architectural accents and offers both smooth and woodgrain surfaces in a single product.
- **Safely dependable.** Resists moisture, rot, decay, and termites with no-added formaldehyde.
- **Exceptional warranty coverage.** Our 50-year warranty offers peace of mind you and your customers can count on.

INSTALLER-FRIENDLY TO SAVE TIME ON THE JOBSITE

- Factory-primed on four sides with exterior-grade primer, Armorite® Exterior Trim readily accepts your finishing coats of paint.
- Single-layer component material ensures consistent nailing with no pop-throughs or material delamination.
- Best-in-class workability delivers clean cuts, minimal sanding, and smooth paint finishes.

PRODUCTS OFFERED *All trim is available in 16' length.*

ICC-ES Evaluation Report ESR-4012 (www.icc-es.org)

ISO 21887 Durability of wood use class UC3A

Recognized for exterior use in above-ground applications. Resists attack by fungal decay and subterranean termites, including Formosan termites.

Moisture Resistant

Meets grade MR50 moisture resistance

Exceeds requirements of ASTM D1037 six-cycle accelerated aging test

Formaldehyde Emissions Regulations – Third-party certified (TPC-1) to meet the requirements of:

EPA Formaldehyde Emission Regulation, TSCA Title VI*

Standards Council of Canada Formaldehyde Emissions Standard for Composite Wood Products – CAN/CSA 0160-16*

Exceeds requirements of ASTM D1037 six-cycle accelerated aging test

Recycled Content

Third-party certified 90.5% pre-consumer recycled content

Forest Stewardship Council®

Scientific Certification Systems Certified (SCS-COC/CW-00300) – FSC-C017580 FSC® Mix and FSC® Controlled Wood - AVAILABLE OPTION*

Eco-Certified Composite Grademark Program

CPA ECC Sustainability Standard*

PrimeLinx®
PRIMED PRODUCTS

Effortlessly Add Character and Sophistication to Your Surroundings.

Primelinx moulding delivers a flawlessly smooth, perfectly primed finish that's ready for paint the moment it arrives. Engineered for consistency and durability, each piece offers crisp detail and reliable performance, making it an ideal choice for builders and designers who expect excellence.

MoistureShield® Decking

Composite Decking

Live outside the ordinary.

MoistureShield® offers the only wood composite deck board that can be installed in the ground, on the ground and underwater. Every MoistureShield® deck board is equipped with an impermeable barrier that fights against damage from moisture, rot, insects and other harmful elements. Our exclusive CoolDeck® Technology also reduces heat up to 35%* so you can stay much cooler and enjoy your deck more, even under the hot summer sun.

Why MoistureShield®?

Solid Core Innovation – Moisture-resistant to the core for installs on the ground, in the ground, or even underwater.

CoolDeck® Technology – Reduces heat absorption to keep boards cooler underfoot.

Low Maintenance – No rotting, warping, or splintering—ideal for long-term customer satisfaction.

On-Trend Colors & Profiles – Options that meet today's design preferences and price points.

MoistureShield®

InstaDeck®

Introducing **MoistureShield InstaDeck® Outdoor Flooring System**

MoistureShield's InstaDeck® is a user-friendly outdoor flooring system for creating ground-level, freestanding decks. Compatible with all MoistureShield decking lines, it allows for screw-free installation with an integrated fastening system. Ideal for homeowners seeking a quick and cost-effective way to upgrade their outdoor space.

- Create any size deck using locking tile foundation
- Picture frame ability using line and corner tiles
- Minimal tools required for easy installation
- Compatible with 60mm (2³/₈") pavers to combine decking and hardscape
- Assemble on any flat surface: grass, concrete, existing patio surfaces and gravel
- Tiles can be offset around obstacles and existing hardscape or concrete
- Made in the USA with Limited Lifetime Warranty

Step 1. Ensure a flat, level surface and set tiles

Step 2. Press clips together to interlock tiles and then secure tiles to surface

Step 3. Step down to snap boards in

2' x 2' InstaDeck (set of 4)

Actual dimensions 22.55" x 22.55"

Corner InstaDeck (set of 4)

Actual dimensions 5.83" x 5.83"

Cedar

Shakes & Shingles, Rainscreen Products & Posts

Add a Captivating, Elegant Touch to Architectural Designs.

Cedar seamlessly combines aesthetic charm with functional durability. With its alluring reddish-brown tones that mature into a captivating silvery hue over time, cedar offers innate resistance to decay and pests due to its natural oils and compounds.

Cedar's exceptional stability and workability make it a go-to choice for siding, decking and roofing, ensuring structures maintain their appeal while weathering the elements.

Introducing **Greenbar2X[®] Fiberglass Rebar**

Greenbar2X[®] is next-generation fiberglass rebar engineered to deliver unparalleled strength, durability, and corrosion resistance, making it the ideal solution for residential and commercial construction projects. Designed to outperform traditional steel, Greenbar2X[®] is perfect for applications ranging from small-scale jobs like patios, driveways and foundations to large infrastructure projects such as pool foundations and retaining walls. Its lightweight design ensures quicker, more efficient installation, reducing both time and labor costs on-site. With superior resistance to corrosion, Greenbar2X[®] minimizes maintenance expenses and significantly extends the lifespan of concrete structure. Greenbar2X[®] is the smart, sustainable choice for projects that demand long-lasting performance and concrete reinforcement in even the harshest environments. It's time to start building stronger, faster, better!

Better than Steel Rebar

-  **STRONGER**
-  **EASIER TO CUT**
-  **LIGHTER & EASIER TO HANDLE**
-  **WILL NOT RUST OR CORRODE**
