- ✓ Unparalleled Customer Service
- ✓ Extensive Selection of Products
- ✓ Coast-to-Coast Distribution

BlueLinx is the leading wholesale building products distributor for the top brands and customers in North America for homes and commercial construction. With warehouses across the country and a strong logistics network, we pick, pack, and ship the most sought-after materials to retailers and builders across America – completely, accurately, and on time. Since 1954, BlueLinx has been a proud blue-collar company of dedicated people who use their hands and skills to help transform building products into strong, secure businesses, houses, and homes. We emerged out of the plywood distribution division of Georgia-Pacific Corporation and have grown to become a preeminent partner for specialty materials suppliers, retailers, and professionals in the construction industry. BlueLinx is headquartered in Atlanta, Georgia.

Introducing **Greenbar2X Fiberglass Rebar**

Greenbar2X is next-generation fiberglass rebar engineered to deliver unparalleled strength, durability, and corrosion resistance, making it the ideal solution for residential and commercial construction projects. Designed to outperform traditional steel, Greenbar2X is perfect for applications ranging from small-scale jobs like patios, driveways and foundations to large infrastructure projects such as pool foundations and retaining walls. Its lightweight design ensures quicker, more efficient installation, reducing both time and labor costs on-site. With superior resistance to corrosion, Greenbar2X minimizes maintenance expenses and significantly extends the lifespan of concrete structure. Greenbar2X is the smart, sustainable choice for projects that demand long-lasting performance and concrete reinforcement in even the harshest environments. It's time to start building stronger, faster, better!

Better than Steel Rebar

- ✓ STRONGER
- ✓ LIGHTER & EASIER TO HANDLE
- ✓ EASIER TO CUT
- ✓ WILL NOT RUST OR CORRODE

TOP REASONS to use D-Blaze® Fire Retardant Treated Wood

D-Blaze® Fire Retardant Treated Wood (FRTW) products are highly effective solutions for enhancing fire safety in wood construction. Both are pressure-impregnated with fire retardant chemicals to slow down flame spread, reduce smoke development, and meet the stringent requirements of major building codes across North America. These products provide a cost-effective, durable option for fire protection in both residential and commercial applications.

- Meets major U.S. and North American building code requirements (IBC®, IRC®, NBC®)
- UL Classified for flame spread and smoke development values of 25 or less
- UL GREENGUARD GOLD Certified for low VOC emissions
- Backed by a 50-Year Limited Warranty
- Tested for 1-hour and 2-hour fire-rated wall assemblies (ASTM E119)
- Low corrosion rates to code-approved metal fasteners and hardware
- Non-hygroscopic and durable under high temperature and humidity
- Easy to handle and work with common woodworking tools
- Provides a lower in-place cost than non-combustible materials

Yellow Pine & SPF Furring Strips

Beautiful and Sustainable

Pine is the perfect choice for a variety of projects from flooring to walls, ceilings and more. The natural beauty of pine combined with its workability and value make it one of the most popular boards on the market. Fast growing pine is also the most environmentally friendly species on market.

Showcasing the Pure Beauty of Natural Wood.

Gorman lumber is carefully graded above the NLGA or WWSA industry standards, has a furniture finish that is smooth and splinter-resistant (The Gorman Edge) and is heat treated and kiln dried to ensure a stable board, not prone to bowing or cracking.

The Gorman Edge:

Different Grades:

All 1" boards are carefully graded with smaller and fewer natural traits allowed in the higher grades of wood.

Different Package Sizes:

All Gorman products are wrapped in protective tarp to ensure clean stock and better inventory control.

- ✓ Smooth surfaces & soft edges
- ✓ Fewer slivers
- ✓ Less chipping
- ✓ Waxed edges to reduce splits
- ✓ Slow & gentle drying to create a flat & stable board

Cedar

Green Dimensional & Trim, Timbers & Pattern Stock

Add a Captivating, Elegant Touch to Architectural Designs.

Cedar seamlessly combines aesthetic charm with functional durability. With its alluring reddish-brown tones that mature into a captivating silvery hue over time, cedar offers innate resistance to decay and pests due to its natural oils and compounds.

Cedar's exceptional stability and workability make it a go-to choice for siding, decking, and roofing, ensuring structures maintain their appeal while weathering the elements.

TruExterior®

Exterior Trim

TruExterior®

Siding & Trim

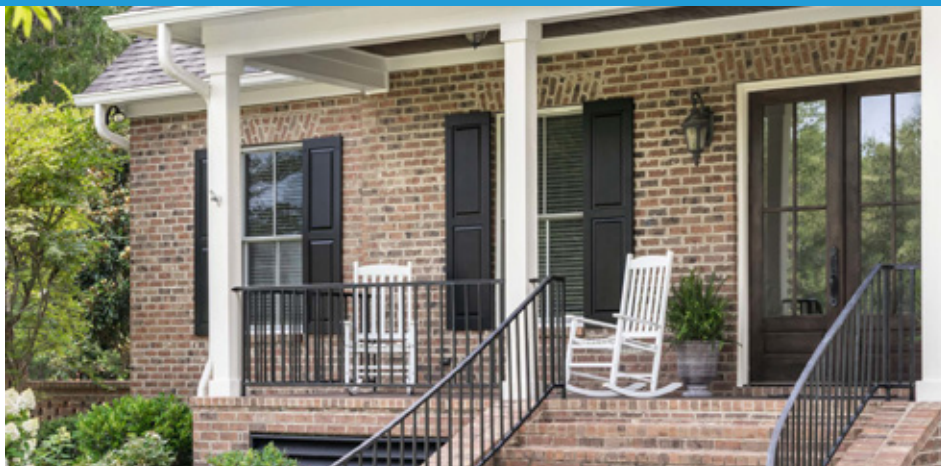

FROM DESIGN FLEXIBILITY TO DIMENSIONAL STABILITY, TRUEXTERIOR CHANGES THE SIDING & TRIM GAME.

It all starts with poly-ash technology, tested in extreme climates to give TruExterior a high level of dimensional stability. TruExterior is made in the USA, and when you add moisture and bug resistance, suitability for ground contact, Class A fire rating per ASTM E84 and a 20-Year Limited Warranty, it's a true confidence builder for pros and homeowners.

Benefits Wood Can't Match.

You can count on PROLinePlus® PVC trim and moulding to boost your home's interior design appeal. Our boards have the look and feel of painted wood. They are available with a smooth finish on both sides, or textured on one side and smooth on the other.

- Superior quality and excellent dimensional accuracy
- Low-maintenance, long-lasting material
- Natural White and ready to install
- Highly resistant to UV yellowing
- Can be painted to complement exterior colors
- Cuts and mills with traditional woodworking tools
- Excellent flame spread rating – categorized as self-extinguishing
- 30-year limited warranty*

*For information about our 30-year warranty, please visit bluelinxco.com/proline-plus-pvc

MoistureShield® Decking

Composite Decking

Live outside the ordinary.

MoistureShield® offers the only wood composite deck board that can be installed in the ground, on the ground and underwater. Every MoistureShield® deck board is equipped with an impermeable barrier that fights against damage from moisture, rot, insects and other harmful elements. Our exclusive CoolDeck® Technology also reduces heat up to 35% so you can stay much cooler and enjoy your deck more, even under the hot summer sun.*

Solid Core Innovation – Moisture-resistant to the core for installs on the ground, in the ground, or even underwater.

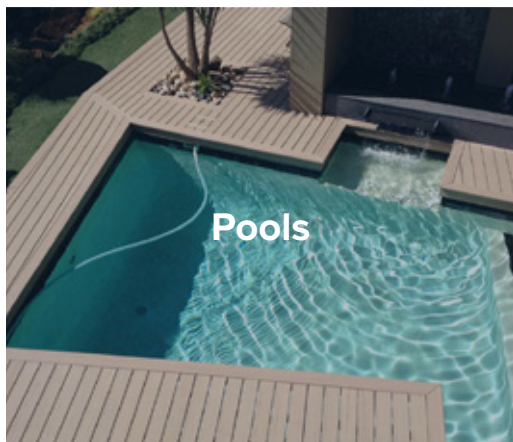

CoolDeck® Technology – Reduces heat absorption to keep boards cooler underfoot.

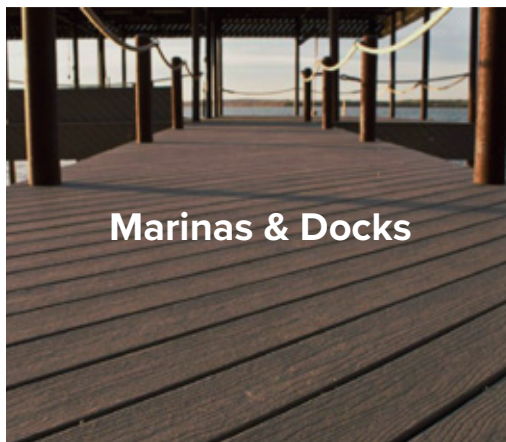

Low Maintenance – No rotting, warping, or splintering—ideal for long-term customer satisfaction.

On-Trend Colors & Profiles – Options that meet today's design preferences and price points.

MoistureShield®

InstaDeck®

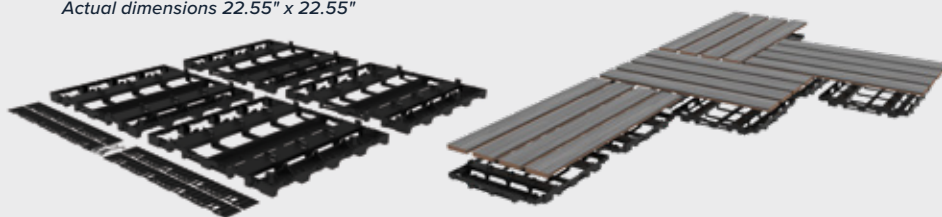

Introducing **MoistureShield InstaDeck®** Outdoor Flooring System

MoistureShield's InstaDeck® is a user-friendly outdoor flooring system for creating ground-level, freestanding decks. Compatible with all MoistureShield decking lines, it allows for screw-free installation with an integrated fastening system. Ideal for homeowners seeking a quick and cost-effective way to upgrade their outdoor space.

- Create any size deck using locking tile foundation
- Picture frame ability using line and corner tiles
- Minimal tools required for easy installation
- Compatible with 60mm (2 $\frac{3}{8}$ ") pavers to combine decking and hardscape
- Assemble on any flat surface: grass, concrete, existing patio surfaces and gravel
- Tiles can be offset around obstacles and existing hardscape or concrete
- Made in the USA with Limited Lifetime Warranty

2' x 2' InstaDeck (set of 4)

Actual dimensions 22.55" x 22.55"

Corner InstaDeck (set of 4)

Actual dimensions 5.83" x 5.83"

Step 1. Ensure a flat, level surface and set tiles

Step 2. Press clips together to interlock tiles and then secure tiles to surface

Step 3. Step down to snap boards in

BlueLinx Raleigh Now Stocks RDI Railing

RDI® Railing is engineered for speed, ease and style, with smart features that streamline installation while defining elevated design. Our broad range of inventory includes materials and customizable options backed by decades of innovation and over 20 patents to provide railing solutions that install faster, perform beautifully and stay stunning.

Elevation® Rail Aluminum Railing

Elevation Rail installs 38% faster than competitors with no special tools required. Featuring pre-strung cables, adjustable panels, and the OneTen™ system, it offers modern design, unobstructed views, and versatility for indoor or outdoor use.

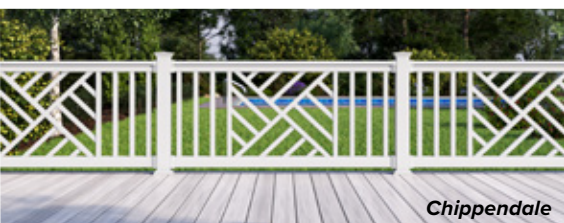

- Features patent-pending OneTen™ built-in centralized tensioning control system
- No special tools or fasteners needed
- Available in pre-assembled kits with pre-installed brackets and pre-strung stainless-steel cables
- Modern, industrial design with continuous top rail for both level and stair applications
- Available in Matte Black

Finyl Line™ T-Top Balusters with Square Rail Kit

The Finyl Line T-Top Balusters with Square Rail Kit offers a classic, low-maintenance railing solution with the strength of aluminum reinforcement. Designed for quick installation, this kit provides a clean, traditional look while ensuring long-lasting durability.

- **Strong & Durable** – Aluminum-reinforced vinyl for enhanced stability and performance
- **Low-Maintenance Vinyl** – Resistant to weathering, fading, and warping
- **Concealed Fastening System** – Brackets hide fasteners for a seamless, professional finish
- **Available in White** – A timeless color to complement any outdoor space

Chippendale

Freeport

Finyl Line™ Chippendale & Freeport Decorative Infill Pre-Built Panels

Upgrade your railing with the timeless beauty of Chippendale and Freeport Decorative Infill Pre-Built Panels. These ready-to-install panels offer an elegant, custom look while maintaining the durability and low maintenance of Finyl Line Vinyl Railing.

- **Pre-Assembled Convenience** – Installs quickly with Finyl Line T-Top railing
- **Durable & Low Maintenance** – Crafted from weather-resistant vinyl for long-lasting beauty
- **Distinctive Designs** – Chippendale features a classic crisscross pattern, while Freeport offers a refined, modern look

*Chippendale and Freeport pre-assembled infill panels available in White with T-Top profile only

**Decorative Screen Panels sold separately

rdi[®]

RAILING

Avalon™ Aluminum Railing

Avalon Aluminum Railing offers rust resistance, style, and security with pre-assembled panels and ProLock® locking strips. It features three top rail options and customizable infills, including square balusters, glass, cable, rod rail, and Decorative Screen Panels.

- Cable and glass slat infill options provide unobstructed views
- Decorative Screen Panel infill option offers increased customization
- Premium powder coating on aluminum framing
- Available in Matte Black, Matte Bronze, White
- Assembled in the USA with Transferable Limited Lifetime Warranty

Fusion™ Composite Railing

Durable, water-resistant composite rails capped with ground-breaking AlumiCast™ Technology boldly frame views with the strength of Composicore® and sleek look of aluminum at a smart value. Pre-assembled panels are designed to install quickly and stay beautiful for decades.

- Strength and look of matte-finish aluminum with the value and durability of composite
- Superior moisture resistance—won't rot, warp, splinter or mold
- Durable acrylic cap with lightly textured, long-lasting matte finish
- Pre-built panels install quickly and easily

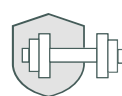

Every Style, Elevated

Customizable systems ensure ideal features and elegant design.

Engineered Efficiency

Smart innovation streamlines installs and ensures performance.

Enduring Strength

Proven materials and systems stand strong and stay stunning.

Trusted Nationwide

The preferred choice with reliable distribution and support.

Notes
